VICTORIA, B. C., THURSDAY, OCTOBER 9, 1913

NO. 85

## LEADER SPEAKS IN AID OF LIEUTENANT

Sir Wilfrid Laurier Addresses  
Great Assemblage in Cha-  
teauquay County

## REVISION OF TARIFF BECOMES IMPERATIVE

If Conservatives Will Not Act  
Liberals Ready Again to Do  
Duty by People

## TWO BY-ELECTIONS LIKELY TO FOLLOW

Ormatown, Oct. 9.—At a public meeting held here this afternoon in support of the candidacy of Hon. Sydney A. Fisher, Liberal nominee in Chateauquay, the speakers included Sir Wilfrid Laurier, Hon. George P. Graham, Hon. Charles Maclellan, R. L. Calder and Mr. Fisher himself. There was a great crowd present, and Sir Wilfrid got a magnificent reception.

In opening, Sir Wilfrid deprecated the "stranger" cry made against Mr. Fisher because he lived a few miles outside the county boundary, and urged that he be given the freedom of the county by being placed at the head of the polls.

Sir Wilfrid went on to compare the records of the two parties up to the present and the principles actuating each.

"I ask Conservatives at this meeting," he said, "do you recognize in the present mixture of jingoism, Toryism and Nationalism, the old Conservative party of Sir John A. Macdonald?"

"At the last election, two years ago, the Liberal party was defeated. I am a believer in government for the people, by the people. The people can make mistakes, and they made one then, but we will stand by our convictions, and it is our purpose to convert the people to a better way of thinking." (Cheers.)

Referring to the present government, the Liberal leader charged them with forgetting Canadian affairs. Home affairs, he declared, demanded more attention than any imperial question, and he urged Mr. Borden to leave the empire to Mr. Asquith.

Sir Wilfrid quoted statistics of the British board of trade, showing that while the cost of living in the British Isles had increased 7 per cent, in Canada it had increased 51 per cent. He then referred to a surplus of \$50,000,000 in the Dominion treasury, and averred that the government should not take so much money out of the pockets of the people when the cost of living was so high.

"This state of things cannot last," said Sir Wilfrid, "and we must revise the tariff." (Cheers.)

The leader mentioned that the Liberals had been told the present tariff was their own, that it was passed by Mr. Fielding in 1897.

"That is true," Sir Wilfrid admitted, "but that tariff was not made for all ways."

He urged the government to a revision, admitting such a revision was a delicate operation, but told them not to hesitate, and do what has to be done.

"And if you are not able to do it," he stated, "make way for better men. We have done it once and can do it again." (Cheers.)

## CHINA IS FRIENDLY TO ALL THE POWERS

President Yuan Shi Kai As-  
sures the World of His  
Good Intentions

## ALL TREATIES TO BE STRICTLY OBSERVED

Peking, Oct. 9.—The friendly intentions of the Chinese government toward foreign interests will be strongly emphasized in President Yuan Shi Kai's inaugural message to parliament to-morrow. On this subject he will say:

"The attitude of the foreign powers toward us has always been one of peace and fairness. They have given us cordial assistance whenever the occasion arose. This, of course, is due to the civilization of the world, yet all the same we highly appreciate the fact."

"Further, I declare that all rights, privileges and immunities enjoyed by foreigners in China by virtue of international engagements, national enactments and established usages, are hereby confirmed."

"This declaration I make with the view of maintaining international amity and peace."

## FAILED TO FOOL THE PEOPLE OF MONTREAL

Young Englishman in Supposed West-  
ern Dress Claims Aristocratic  
Lineage.

Montreal, Oct. 8.—"Hon." Beverley "eldest son of the Earl of Herefordshire," clad in sheepskin chaps and cowboy hat, arrived at the Canadian Pacific station to-day from Western Canada with \$1,000 in his pockets earned as farmhand, minor, cook on Canadian Pacific dining cars, café proprietor and waiter. He says he is going home to "dear old London," to show his parents he is no failure, and that Canada is all right.

There is no record in the peerage of Hon. Beverley Archibald, eldest son of the Earl of Herefordshire. There is no such earldom, but there is a Viscount Hereford, Robert Devereux, sixteenth of England. His eldest son is Hon. Robert Charles Devereux, born in 1865, whose son in turn is Robert Geoffrey de Bohun Devereux, born 1894. The family name Archibald is not borne by any member of the British peerage.

Much riding on the plains appears to have confused the cowboy as to his family connections. As eldest son of a belted earl he would rank as a viscount in his own person.

## LITTLE TOT'S LONELY JOURNEY IS FINISHED

San Francisco, Oct. 9.—Little Miss Marguerite Rottchen, aged 4, known as the "don't kiss me" baby, has arrived here safe and happy after traveling all the way from Vienna, Austria, alone. Hugging a big teddy bear, she climbed down from the train and ran to her mother.

The child bore the following notice printed on an old cloth sewed on the front of her frock: "Please, dear folks, direct me kindly to San Francisco, Cal., to my mamma. All my papers are in my pockets if you need to look at them. I thank everybody so much. But please don't kiss me."

The printing was in German and English. Everyone she met, she told her mother, was "mighty good to her."

## SHOT SHERIFF FROM BEHIND.

Calumet, Mich., Oct. 9.—James Polack, a deputy sheriff, was killed by copper mine strikers at the Isle Royale mine, near Houghton. He was shot in the back of the head and attacked with clubs by ten men and died an hour later. Sheriff Cruise has made one arrest and expects to apprehend all of the men involved in the murder. Polack was particularly active as a deputy and had incurred the wrath of the strikers by vanquishing six of them in a fist fight a few days ago.

## MASSACRE CHARGED TO MEXICAN HORDE

Capture of Torreon Believed to  
Have Been Followed by  
a Butchery

## HUERTA TRIES TO KEEP NEWS FROM PUBLIC

Was Frequent Boast of Rebels  
That They Would Slaughter  
Every Spaniard

## CITY HAS BEEN UNDER SIEGE FOR MANY WEEKS

Mexico City, Oct. 8.—With the capture of Torreon by the rebels, rumor became current to-day of a massacre of Spaniards, which, if confirmed, would approach the horror of the massacre of Chinese in the same city in the Madero revolution in 1910.

Private dispatches received here later to-day tend to confirm the rumors. The advice is that there was a slaughter of 175 Spaniards in the city. The dispatches came from Madera, midway between Torreon and Saltillo.

Refugees who have communicated with the rebels in that district declare that it had been a common boast that they would slaughter the Spaniards if they succeeded in capturing the town.

The Spanish minister to Mexico, Senor Colagoyan Colagoyan, was without information to-night further than the reports, but was greatly concerned. He held a lengthy conference with the United States charge, Nelson O. Shaughnessy, and the latter made an appointment with the Mexican foreign minister. The American charge is convinced of the truth of the capture of the city and has so notified Washington.

Few Americans are left in Torreon. Besides Spaniards there are a number of French and German residents. Their diplomatic representatives here are making efforts to learn their fate.

The rebels are said to be headed by Francisco Villa, whose reported capture and execution by the federals later was disproved. They are said to have swooped down unexpectedly toward the last of September when the federals were evacuating.

Every effort has been made by the authorities here to keep the news of the affair from the public. The newspapers to-day even failed to print a reference to the persistent rumors last night. In banking circles the capture of Torreon was credited and caused a jump of twenty points on the exchange.

A telegram received to-day at the United States embassy from Consul General Philip Hanna at Monterey says that a party of more than 300 Americans, Englishmen and other foreigners left Torreon fifteen days ago by special train. They are expected at Monterey to-night. Word yesterday said all were well.

Much alarm had been expressed here over the possible fate of foreigners in Torreon in view of the reported massacre of 175 Spaniards by the rebels there.

Laredo, Tex., Oct. 8.—Federal General Alaraz and his staff of 125 federal soldiers were executed yesterday in Torreon, Mex., under orders of General Francisco Villa, of the Constitutional forces, according to information from reliable sources brought here to-day.

With the city of Torreon, the rebels captured practically all of the federal arms and artillery. The battle lasted four days, with heavy losses to both sides.

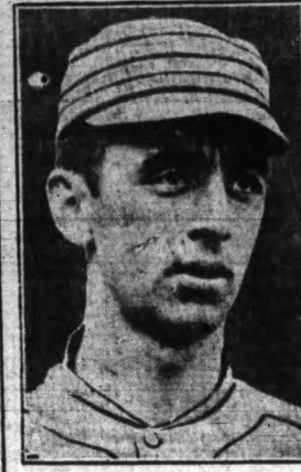

Torreon has been under siege for many weeks, but it was recently stated that the rebels had been driven back. It always has been declared by the authorities to be impregnable because of the heavy artillery with which it was protected.

Another unconfirmed report to-night is that General Truce Aubert, who with a thousand men left Saltillo three weeks ago to march to the relief of Torreon, has gone on to the rebels.

## STARS OF THE WINNING TEAM

PITCHER BUSH  
Who justified Connie Mack's selection of him for the world's series, though a first-year man.

JACK BARRY  
The speedy shortstop of the Athletics, who has no superior in that position.

## BUBONIC PLAGUE IN A SEATTLE HOTEL

Seattle, Oct. 8.—A two-story frame structure known as the Old Seattle hotel, on the waterfront, is to be demolished because a rat found to be infected with bubonic plague germs was caught in the building. The order to destroy the structure was issued to-day by Dr. J. E. Crichton, commissioner of health.

Dr. Crichton stated that he may order adjoining buildings razed. He says that more than 200 rat traps and a large quantity of rat poison have been placed within a radius of three blocks around the building where the infected rat was caught.

## FAMILY ASPHYXIATED BY ESCAPE OF GAS

New York, Oct. 9.—Solomon Schasser and four of his children, two, three, four and seven years respectively, were found dead in their apartment to-day overcome by gas. Their mother was removed to a hospital and is not expected to live.

Twenty-five cents' worth of gas filled the small rooms in which the family made their homes on the upper east side. Someone had put a quarter in the meter and the Schassers went to sleep with gas escaping from two jets that were turned on slightly.

## TO PREVENT A RIOT IN TORONTO CABINET DECIDES THAT MURDERER SHALL NOT HANG

Premier Borden and Cabinet Change Their Minds Within a  
Week and Advise King's Representative to Revise a  
Sentence Which, as High Legal Officer, He Was  
Convinced Was Justified

Ottawa, Oct. 9.—The order-in-council commuting the death sentence passed upon Charles Gibson, the Toronto murderer, to imprisonment for life, was signed yesterday afternoon by Sir Charles Fitzpatrick, the deputy governor-general, who came to Ottawa for the purpose.

Last week Sir Charles signed the death warrant, but this is now revoked. The cabinet in the end decided that it would be desirable to give Gibson the benefit of any doubt that may exist as to whether he did kill Rosenthal.

It is only a week since the cabinet decided that the law must take its course and Gibson be hanged to-day.

Hon. C. J. Doherty, minister of justice, gave most careful and earnest consideration to the whole question. He recommended to the cabinet that the law take its course on the ground that there was no new evidence sufficient to grant another trial. The first trial and the verdict of the jury had been conducted in by Sir William Mulock, who presided at the trial. Under the circumstances he took the ground that a new trial could only be

granted upon a very strong case as to newly discovered evidence not available at the first trial.

The Privy Council considered carefully Mr. Doherty's recommendation, and decided that it could not propose to Sir Charles Fitzpatrick, the administrator of Canada in the absence of H. H. the Governor-General, any interference with the ordinary course of justice.

Immediately a very strong agitation was set up in Toronto to save the murderer from the gallows, petitions being signed in many of the churches last Sunday. Sir Henry Pellatt, Rev. John McNeill and others came to the capital to urge upon the cabinet that the decision be reconsidered. T. Herbert Lennox, K. C., M. P. for North York, counsel for the condemned man, told the members of the cabinet that if Gibson hung there would be a riot in Toronto.

The murder for which Gibson was convicted was a brutal one, the victim being a Jewish junk-dealer named Joseph Rosenthal. A couple of men wanted in connection with the crime are said to be in the woods somewhere in British Columbia.

## FIRST LORD OF ADMIRALTY REAFFIRMS CABINET DECISION TO PASS HOME RULE

Dundee, Scotland, Oct. 9.—The speech which Right Hon. Winston Churchill was to make here last night was awaited with the greatest interest on account of his possible references to Home Rule.

The first lord of the admiralty clearly terms reaffirmed the determination of the government to carry through its programme as to Home Rule, and declared that nothing could or would deter the cabinet from consummating its plans and doing its duty to the country by suppressing disorders, no matter by whomsoever these were fomented, and upholding the law.

In the natural course of parliamentary life, he said, there would be a general election before any legislation could be passed by the Irish parliament, and in the event of a transfer of power from the capable hands now holding it the reins of office would be open to the opponents of Home Rule to repeal the bill. So long as they opposed a settlement by agreement that would be their only constitutional remedy. Dealing with the attitude of a portion of the people of Ulster Mr. Churchill said:

"The claim of northeast Ulster for special consideration would be a claim which, if advanced with sincerity and not as a wrecking venture, could not be ignored without full consideration by the government dependent upon the present House of Commons."

Whitney insists that he did nothing except remove his shoe. It is believed, however, that he fell from the bed while he tugged at the shoe and in this way suffered the injury.

## ARCTIC BEARS FOR DRAUGHT.

St. Petersburg, Oct. 9.—Lieut. Strydom, leader of a Russian polar expedition, writes to the Novos Vremya that he is using white bears instead of dogs for transportation purposes. The bears sometimes are used to draw toboggans at Archangel but they need a lot of breaking in.

## ATHLETICS MADE GAME THEIRS BY FIVE RUNS IN FIRST TWO INNINGS

Tesreau Was Found by the Philadelphia Batters for a Lead  
That Could Not Be Overcome; Giants' Battery and First  
Base Had to Be Changed; Bush, the Unknown  
Pitcher Connie Mack Had Up His Sleeve,  
Did Splendid Work

Polo Grounds, New York, Oct. 9.—The Philadelphia Athletics swamped the New York National League champions to-day under a fusillade of hits, defeating the Giants by the score of 8 to 2.

Bush's fine pitching, together with Collins' hitting and sparkling defensive work, and a long four-bagger by Schang were bright features of the Athletics' game.

Tesreau was found for five runs in the first two innings. Bush allowed only five hits during the game.

Doyle made a scintillating double play unassisted in the seventh inning. The two clubs play the fourth game of the series at Shibe Park, Philadelphia, to-morrow.

Over 25,000 persons saw to-day's battle.

The line-up for to-day's game was: Philadelphia—E. Murphy, r. f.; Oldring, l. f.; Collins, 2 b.; Baker, 3 b.; McInnis, 1 b.; Strunk, c. f.; Barry, s. a.; Schang, c.; Bush, p.

New York—Herzog, 3 b.; Doyle, 2 b.; Fletcher, s. a.; Burns, l. f.; Shafer, c. f.; Murray, r. f.; McLean, c.; Wilson, c.; Merkle, 1 b.; Wittae, 1 b.; Tesreau, p.; Crandall, p.

First Inning—Philadelphia. The announcement that Bush would pitch caused hundreds to murmur in the stands: "This is the pitcher that Connie Mack has kept under cover for the last six weeks in order to use him in the world's series." Thomas, the Athletics' catcher, said that Bush had a world of speed and a fine breaking curve when he warmed up.

Tesreau's curve broke over the plate for a strike. His second pitch was a ball. Fletcher threw out Murphy at first. It was a close play, the ball curving over the plate near his knees.

Tesreau then shot over another strike, putting the batter in a hole. Collins singled over second. Oldring going to third. Then came Baker to the bat, and the Athletics' rooters gave a mighty cheer. Baker missed the first one. The New York infield laid back to try for a double play.

Baker missed the second one by a foot. Oldring scored on Baker's single to left. Collins being held at second. Tesreau put over a strike on McInnis. Collins and Baker made a double steal, putting them on third and second respectively. McInnis struck out, McLean to Merkle, McLean dropping Tesreau's pitch.

Collins and Baker scored when Fletcher took Strunk's grounder, and threw wildly to the grandstand. Strunk went to second on the play. Barry popped to Fletcher. Three runs, three hits, one error.

First Inning—New York. Bush put over the first one for a strike, and the second one was a foul. After having two strikes on the batter Bush pitched three balls. Herzog out Barry to McInnis. Bush had a basketful of speed. He seemed somewhat shy of control. Doyle got an infield hit that Bush was unable to get in time to catch him.

Doyle had a good start on the pitcher in an attempt to steal, but Fletcher fouled the ball. Burns fled to Collins, who tossed to Barry, doubling Doyle at second. No runs, one hit, no errors.

Second Inning—New York. Shafer out when Collins took his slow roller and tossed it to first. Murray sent up an easy fly which Collins smothered. McLean laughed when Bush fooled him with a slow floater over near the corner. McLean fouled out to Schang. No runs, no hits, no errors.

Third Inning—Philadelphia. McInnis fled out to Burns. The Giants' fielder taking the line drive over near the foul line. Burns took care of Strunk's high fly not having to move, but a few feet to get it. McLean took Barry's weak foul. No runs, no hits, no errors.

Third Inning—New York. Merkle sent up a high fly to Strunk. Tesreau went out on three straight strikes, the last ball Tesreau struck at striking the plate, and bounced into Schang's hands. Collins took Herzog's liner and the inning was over. The crowd applauded Bush as he walked to the bench. No runs, no hits, no errors.

Fourth Inning—Philadelphia. Schang struck out for the second time in the game. Bush got a Texas leaguer which Burns trapped on the tops of the grass and it looked like a putout. Murphy out to Shafer. Doyle threw out Oldring at first. No runs, one hit, no errors.

Fourth Inning—New York. Umpire Rigler cautioned the Athletics' players on the bench from coaching. Doyle fouled out to Baker. Bush had plenty of stuff on the ball, his curves breaking very wide at times, keeping Schang busy going after them. Keeping Schang busy going after them. Doyle threw out Oldring at first. No runs, one hit, no errors.

Fifth Inning—Philadelphia. Collins made the New York fans gasp, sending a liner to right which was only foul by inches. Collins out on a smoking liner to Murray. Fletcher took Baker's pop fly on the left field line. McInnis out on a fly to Murray. No runs, no hits, no errors.

Fifth Inning—New York. Bush pitched three balls then shot over two strikes. Murray walked. It was the first base on balls given in the game. Murray stole second and went to third on Schang's wild throw to right centre. Murray scored when McLean's hit shot by Baker.

Cooper ran for McLean. Merkle fled to Murphy. Cooper easily stole second. Schang's throw being very high. Baker threw out Tesreau at first. Cooper going to third. Schang threw out Herzog at first. One run, one hit, one error.

Sixth Inning—Philadelphia. Wilson now catching for New York. Strunk fled to Burns. Barry singled sharply to right. Schang sent a long foul ball to left field stand and the home run. Wilson took Schang's foul after a long run through the Athletics' bench. Bush fled out to Doyle. No runs, one hit, no errors.

Sixth Inning—New York. Doyle out on a grounder to McInnis unassisted. Fletcher walked. A double play ended the inning. Bush took Burns' smash and tossed it to Barry, forcing Fletcher at second. Barry then completed the double by a rife-shot throw to McInnis. No runs, no hits, no errors.

Seventh Inning—Philadelphia. Murphy sent a spitter to right field for a single. Murphy was forced at second when Fletcher took Oldring's smash and tossed to Doyle. Collins threw out Oldring at first. (Concluded on page 2.)

## SNOWFALL DESTROYS PART OF FRUIT CROP

Damage Done in State of Washing-  
ton; Light and Telephone Ser-  
vice Affected.

Roslyn, Wash., Oct. 9.—Breaking all records for heavy snowfalls at this season, the storm which hit Roslyn Tuesday night did several thousand dollars' damage to the property in this vicinity.

The snow broke many fine fruit and shade trees and carried down telegraph and telephone poles. The electric light service was crippled for a time.

The apple crop, which was still on the trees, was severely damaged.

## NOME LOSSES WERE NOT EXAGGERATED

Undismayed by the Disaster, Everyone  
Faces Conditions With Courage  
and Optimism.

Nome, Oct. 9.—The sea has gone down and the people of storm-wrecked Nome are able to take an inventory of their losses, which were not exaggerated in early estimates.

The people are confronting the situation bravely and sanitary conditions are excellent. There is no fear of epidemic. The fires have been extinguished and good order has been maintained.

Most of the merchants will re-establish themselves. The three bodies of men washed ashore have not been identified.

**The Liberal  
Reform Club**  
Will hold a  
**SMOKER**  
at the LIBERAL ROOMS, COR-  
MORANT STREET,  
**TO-NIGHT**  
at 8 o'clock. An attractive  
programme will be provided includ-  
ing short speeches by the local  
candidates.  
All Liberals will be cordially  
welcomed.

## PRESERVE HEALTH OF DAIRY HERDS

Alberta Government Urges Action Upon the Federal Authorities, Who Have Control

Edmonton, Alta., Oct. 9.—The Alberta legislature yesterday unanimously passed a resolution authorizing the government to memorialize the federal minister of agriculture to take steps towards the eradication of tuberculosis in cattle. There have been many complaints, said Hon. Duncan Marshall, in presenting the resolution, and up to the present no action has been taken to prevent the disease further than supplying the farmers who make requests for tuberculin.

The consideration in committee of the whole of Premier Sifton's waterways bill was resumed. The government last night had reached a decision to try to force the bill through committee at an all-night session, but this idea was later abandoned and the discussion proceeded all day long on the same lines.

Members of the opposition deny the government charges of obstruction, and say they have large numbers of amendments which they wish to move to the various clauses in order that their position may be clearly defined before the people.

Much of the afternoon session was taken up in reading extracts from Liberal papers which opposed the Rutherford government several years ago.

The discussion was continued at the evening session.

## ADD BATTLESHIPS TO AMERICAN NAVY

President Drafting His Proposals for Presentation to Congress in December

Washington, D. C., Oct. 9.—Three new battleships and a proportionate number of torpedo destroyers is the aim of the Wilson administration in shaping its naval policy for the December session of Congress.

It became known yesterday that in all probability Secretary Daniels, of the navy department, would put into effect his principle of "less money ashore and more afloat," and advocate the greater part of an appropriation of \$145,000,000 to build three powerful warships—one more than the usual quota, though only a single battleship was obtained after a stormy fight in the last Congress.

With the addition of three first-class battleships, naval officials hope the United States will resume its place next to Great Britain in naval fighting strength, passing Germany, which took second place when the United States dropped to third.

While President Wilson never has made any public declaration on the battleship question it is understood that he favors "an adequate navy."

What particularly encourages naval officials to believe that three battleships will be forthcoming is a report that in making up its estimates of government expenditures the framers of the tariff bill calculated on an increase of about \$3,000,000 over the last appropriation.

If Congress should authorize the construction of three battleships they would be the same type as No. 33, which has not been named. The object is to obtain blocks of four vessels, each having the same speed and fighting ability so as to permit uniform division manœuvres.

## VICTORIAN INJURED IN VANCOUVER ROW

Vancouver, Oct. 9.—David McKinley is in the hospital suffering from a fractured skull, while William Alford is in custody awaiting the outcome of McKinley's injuries. It being alleged that in a fight on Friday night, Tuesday, October 8, McKinley, knocking him to the pavement and injuring his head. Alford is a steamboat fireman. McKinley is understood to belong to Victoria. A large crowd gathered in the vicinity but was dispersed by the police. McKinley will recover, it is said at the hospital this afternoon.

## COMELY YOUTH FINDS WOMEN JURORS LENIENT

Seattle, Oct. 9.—The first case ever tried by a jury of women in the superior court in King county resulted yesterday in the acquittal of Robert G. Mitchell, a comely youth, who was charged with grand larceny.

The case was tried in the court of Judge J. T. Ronald and the prosecution advanced the argument that the evidence presented was more than enough to insure conviction, but the women found the youth not guilty.

## MISSIONARIES SAFE.

Peking, Oct. 9.—The foreign missionaries, American and Norwegian, who have been in the hands of the bandits at Tsao Yang, have been rescued. According to the advices received here, they have not been injured. The captives included Rev. George Helm and Rev. Herman Fauske and his wife and child. They were being held for ransom, but Tsao Yang was surrounded by government forces, and the attempt by the bandits to break through the cordon was repulsed.

## SERVANTS MAY DANCE TANGO.

London, Oct. 9.—Although Queen Mary will not countenance the tango at any ball at which she is present, her majesty has just consented to allow it to be danced in the servants' hall of Buckingham Palace during the coming season. It was forbidden to introduce the tango or the other modern dances, but maid servants petitioned Lady Bertha Dawson to ask the queen to remove the ban. Lady Bertha was successful. Had she failed, it is reported, the staff would have gone on a strike.

## TO BANQUET PREMIER.

Quebec, Oct. 9.—The list of invitations to the Borden banquet, to be held here on October 20, contains the names of all the federal ministers. Sir Wilfrid Laurier, leader of the Opposition, the presidents of the railway companies who have access to Quebec and others. Efforts are being made to induce Sir Lomer Gouin to attend the function in order to make it of a non-political and non-partisan character.

## NO MORE DRAPED STATUES

Washington, D. C., Oct. 9.—Draperies will not conceal the beauties of classic statues, nor will hangings cover the pictures in the gallery at a time, the forthcoming winter exhibition of the Corcoran Gallery. This announcement was made to-day. It quieted a report that the private view always accorded the president and his personal and official families at the commencement of the season would be an expurgated one.

## MINING CAMP WITHOUT DOCTOR.

Fairbanks, Alaska, Oct. 9.—Reports from Iditarod state that the one physician remaining in the camp is about to leave and it is feared that the community of 700 will be without medical attendance through the winter. It is stated that the government is to be asked to send a doctor to the camp.

## HIGH COST OF LIVING A SUBJECT OF INQUIRY

President Wilson Invites Canadian Government to Co-operate in the Work

Ottawa, Oct. 9.—The president of the United States is endeavoring to have Canada co-operate with the American government in an inquiry into the high cost of living.

President Wilson has outlined a policy of investigation, and is already taking active steps to carry it out immediately. It is absolutely independent, and will be different in scope, method and general character from any inquiry into this problem heretofore.

The Dominion government during the last year has given much thought to the high cost of living, and it is understood, is quite prepared to co-operate with the United States in an effort to get at, and remedy, the primary cause.

Correspondence has passed between the two governments. Roy Meagher, commissioner of labor statistics in the labor bureau at Washington, is in Ottawa endeavoring to arrange preliminary steps towards the co-operation of the two countries to solve the cost of living problem and to have the two governments co-operate in getting labor and economic statistics.

## PIONEER PHYSICIAN DIES IN WINNIPEG

Winnipeg, Man., Oct. 9.—Dr. G. H. Kennedy died in the general hospital yesterday. He was one of the most distinguished members of the medical profession in Western Canada, and in addition to a large private practice, was surgeon-captain in the R. N. W. M. P. and the official doctor for the C. P. R. for many years.

He was born at Dundas, Ont., in 1857 and came to the Northwest territory in 1878. In 1883 he married Miss Alice Maude Allen, who still survives him with one son and one daughter. The son, Dr. A. Kennedy, is practicing in Macleod, Alberta, and the daughter, Mrs. Ward, resides in British Columbia.

## NAVAL WATERPLANE HAS AN ODD MISHAP

London, Oct. 8.—An odd mishap occurred at Cromarty yesterday to the naval waterplane, on which Right Hon. Winston Churchill recently ascended 2,000 feet.

Lieut. Oliver and his mechanic, Glyde, after ascending 2,000 feet, were planning to the surface of the sea when the standard mast struck the water and it was wrenched off. As a result, the machine spun around and plunged beneath the surface, taking the pilot and mechanic with it. The entire machine crumpled up.

Oliver was entangled in the wreckage under water, but succeeded in extricating himself. Glyde was momentarily stunned by a blow on the head from a spar, but was able to save himself by swimming. Naval launches rushing to the rescue found the two men clinging to the wreckage. Glyde was exhausted.

## BAD NEWS FOR LOVERS OF THE ESCULENT ONION

Washington, D. C., Oct. 9.—Lovers of beefsteak and onions were startled yesterday when the department of agriculture announced that tylenchus devastatrix had invaded the United States and the future of the onion industry was in jeopardy.

The invader with the imposing name is known also as the onion eel worm. Hitherto it has confined its operations to Europe, Africa and Australia, where it has wreaked havoc, but now it has made its appearance in this country.

## AUSTRIA'S SHIPBUILDING.

Vienna, Oct. 9.—Austria's naval estimates, as made public, include \$45,000,000 for new battleships to be constructed or already building. Besides four dreadnoughts already laid down, it is planned to build two super-dreadnoughts at a cost of \$15,000,000 each. The admiralty also contemplates two more super-dreadnoughts to be completed in 1917, at a cost of \$20,000,000.

## GIRLS! GIRLS! TRY IT. BEAUTIFY YOUR HAIR

Make it Thick, Glossy, Wavy, Luxuriant and Remove All Dandruff.

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Dandarine hair cleanse." Just try this—moisten a cloth with a little Dandarine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Dandarine dissolves every particle of dandruff; cleanses, purifies, and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Dandarine from any drug store or toilet counter, and just try it.

## 32 Over-Proof Is Ye Olde "H. B." Rum

In every medicine chest there should be RUM—not any kind of RUM, but "H. B." RUM. It doesn't cure everything, but it does cure colds.

## \$1,500,000 DAMAGE BY ARSON SQUAD

MILITANTS BUSY IN  
LAST SEVEN MONTHS

Many Homes Destroyed, Un-occupied Residences, Railroad Stations Also Wrecked

London, Oct. 9.—Militant suffragettes have done \$1,500,000 damage in seven months in their campaign of arson. This staggering total includes only the fires which can be directly charged to them; fires where signs proving suffragette origin were found after the fire.

Most of the properties damaged have been buildings not used for dwelling purposes or unoccupied homes. Two churches have been damaged, cricket pavilions and railroad depots have been ruined, six men have been injured. Special watchmen are now being employed to guard all large private country estates which are unoccupied.

The great fire at Seaford, near Liverpool, on Tuesday, when a building being converted into a home for lunatics was partly destroyed, shows that all England is a battlefield for the incendiaries. In that fire piles of brush were put along the walls of the building at frequent intervals, soaked in oil and ignited simultaneously. The damage in that one fire alone was \$199,000.

Arson Campaign Began in March.

The reign of terror by firebrand began last March. Four months later an authoritative list was compiled showing that the militants had done \$574,000 damage. There had been fires in eight private houses, three cricket pavilions, two churches, two railroad depots, two race stands and a bathhouse. That list failed to include many fires of suffragette origin which were put out when only a few hundred dollars of damage had been done. Since July 1 there have been three fires of \$125,000 damage each; two in churches which totalled \$50,000, one where the loss was \$60,000, and one where the loss was \$400,000, a total of \$885,000 in seven fires. The smaller fires bring the total since that date up to well over \$900,000 and the figures between March 1 and July 1 amounting to \$574,000, make the total figure \$1,500,000.

The first suffragette fire occurred last March when the Kew pavilion was destroyed. Suffragette cards carrying threats were found near by, which was clearly a case of arson. Immediately after the Kew fire a golf pavilion at Richmond was destroyed. The fire had the same earmarks of being a suffragette outrage.

\$9,000 Blaze in Surrey.

On March 14 Lord Beauchamp was making a speech from a platform when a young woman carrying a fire torch was arrested while she was crawling under the platform. Her purpose was incendiarism. Two days later an empty private house in Surrey was destroyed, at a loss of \$9,000. Then on March 20 the country house of Lady Amy V. was burned out, and as in the other cases oil soaked rags and suffragette literature were found after the fire. That same day two golf pavilions at Weston-super-Mare were destroyed. More oil and placards denouncing those who had not yielded to woman's demand for the vote.

Then in swift succession came several slight fires in private houses in the suburbs or country. On March 27 a new house at Hempstead was burned; on April 3 three houses at Hempstead were set on fire, but were saved. When Mrs. Emmeline Pankhurst was sentenced to serve three years at hard labor the real reign of terror began. It seemed as if the women would stop at nothing. On April 5 two young women were caught with suitcases full of implements of arson; an empty house in Hertfordshire was destroyed, at a loss of \$12,500, and the grand stand of the racing course at Ayr was burned down. Damage, \$15,000.

For the next ten days the damage score was slight, although several fires were started. Then on April 15 the home of Arthur Philip Du Cros, Unionist member of parliament, was destroyed. Explosives were planted by the incendiaries.

Train Partly Destroyed.

On April 26 an empty train in a London station was partly destroyed; on May 2 a bathhouse, some skiffs and a stable were burned; on May 28 the Great Central Railway lost some of its stored timber and a cricket pavilion at Nottingham was destroyed.

On June 4 an unoccupied house near Trowbridge was destroyed at a loss of \$75,000. On June 21, the Gatty Marine Laboratory of the University of St. Andrews lost valuable charts and scientific records and the organ loft of the Church of St. John at Southend was burned out. Balthamrain Castle, near Stirling, suffered a loss of \$125,000 on July 1; on July 5 two churches in Wales were damaged to the tune of \$50,000; on July 9 Sir William H. Lever's historic mansion near Norwich had a fire loss of \$125,000, and on August 5 the residence of the late Sir George Newnes was destroyed. The loss was \$60,000.

Other fires occurred on August 14, August 26, September 5 and September 13. On September 17 the historic castle of the Baron de l'Isle and Dudley was partly destroyed, and on September 18 the Cedars, in the suburbs of London, which had been leased by Mr. and Mrs. Ogden Mills, was burned out at a loss of \$125,000.

All of these fires are blamed directly on the militants, as the fires are of incendiary origin, a fact shown by the presence of oil soaked rags or other means of starting fires, and because in each case cards containing threats unless the vote is speedily given were found.

Phoenix Beer, \$150 per doz. etc.

## STATE SUPERVISION OF CIVIC FINANCE

Saskatchewan Cities Believe  
This Would Assist in the  
Sale of Debentures

Regina, Sask., Oct. 9.—The advisability of petitioning the provincial government that a local governing board be established to supervise the finances of the various municipalities throughout the province occupied the attention of a meeting of representatives of various cities of Saskatchewan yesterday. The outstanding reason advanced for the formation of this board is that it would assist in the selling of debentures of the municipalities without the difficulty that was encountered in a great many instances during the past year.

The following are the points that were presented to the meeting in support of the founding of the board:

That the difficulty encountered by Western Canadian cities in disposing of their debentures is largely due to the fact that the financiers required some assurance that the money was required for bona fide improvements.

That the cities of Great Britain had no difficulty in obtaining money for municipal works at a low percentage owing to the fact that the contemplated expenditure had first to be approved by the local governing board.

The establishment of such a board by prominent British and Canadian financiers.

After a lengthy discussion, a resolution was passed asking the provincial government to take into consideration the establishment of this commission. An appointment was arranged for this afternoon with Hon. Geo. Langley, the minister of municipal affairs, and the resolution will then be presented, and the case laid before him for consideration.

The movement to establish this board received its first setback in the meeting of the city council of Regina, when the aldermen decided that the credit of this city on the financial markets of the world was so good that a commission of this kind was unnecessary, as far as this city was concerned.

## ULSTER VOLUNTEERS CAMP OF INSTRUCTION

Regular Military Establishment in the  
Grounds of Duke of Abercorn's Residence.

Londonderry, Oct. 9.—The camp of instruction in the Duke of Abercorn's demesne, at Baronscourt, in connection with the Tyrone regiment and Ulster Volunteers, begins operations next Monday. The object is to instruct officers, and a section of the leaders, how to conduct guerrilla warfare. There are 225 officers in camp, the Duke of Abercorn commanding, with Captain Ricardo, late of the Inniskilling Fusiliers, as adjutant. The camp is being conducted on strict military lines, and there is no admission without a permit.

An analysis of the occupations of the men shows the diversity of types. There are 155 farmers, thirty-one laborers, twelve land owners, ten manufacturers, four Church of Ireland and four Presbyterian clergymen, five shopkeepers, five carpenters, two solicitors, four auctioneers, and one barrister. General Richardson is in command of the volunteers.

Colonel Fain, chief of staff, spent the day at Old Farm, the headquarters.

The staff includes sixteen cooks, and five squads are drilling all day. The men are loop-holed in a cottage, which forms a temporary fort, protected by barbed wire, and there is a rifle in the camp for every man.

## CO-OPERATIVE CREDITS.

Ottawa, Oct. 9.—The Evening Citizen stated that, at the next session of parliament, Hon. Arthur Meighen, solicitor-general, intends to reintroduce his bill authorizing the establishment of co-operative credits societies.

## A WONDERFUL DISCOVERY

An eminent scientist, the other day, gave his opinion that the most wonderful discovery of recent years was the discovery of Zam-Buk. Just think! As soon as a single thin layer of Zam-Buk is applied to a wound or a sore, such injury is insured against blood poison! Not one species of microbe has been found that Zam-Buk does not kill! Then again, As soon as Zam-Buk is applied to a sore, or a cut, or to skin disease, it stops the smarting. That is why children are such friends of Zam-Buk. They care nothing for the science of the thing. All they know is that Zam-Buk stops their pain. Mothers should never forget this.

Again, As soon as Zam-Buk is applied to a wound or to a diseased part, the cells beneath the skin's surface are so stimulated that new healthy tissue is quickly formed. This forming of fresh healthy tissue from below is Zam-Buk's secret of healing. The tissue thus formed is worked up to the surface and literally casts off the diseased tissue above it. This is why Zam-Buk cures are permanent.

Only the other day Mr. Marsh, of 101 Delorimer Ave., Montreal, called upon the Zam-Buk Co. and told them that for over twenty-five years he had been a martyr to eczema. His hands were at one time so covered with sores that he had to sleep in gloves. Four years ago Zam-Buk was introduced to him, and in a few months it cured him. To-day—over three years after his cure of a disease he had for twenty-five years—he is still cured, and has had no trace of any return of the eczema!

All druggists sell Zam-Buk at 50c. box, or we will send free trial box if you send this advertisement and a 1c. stamp (to pay return postage). Address Zam-Buk Co., Toronto.

## "The Fashion Centre" Furs, Marabous, Ostrich Feather Boas

From the Standpoint of Quality and VALUE, our Sets and Separate Pieces Will Astonish You.

### PLUSH SETS

Muff and Stole Sets, in colors of grey, black and mole. "Campbell's" exclusive values at \$13.50 to . . . \$3.25

### NEAR SEAL

Also known as Coney Seal. A very warm Fur. Muffs at \$11.50, \$7.50, \$5.00 and . . . \$3.75  
Stoles, Satin or Fur Linings, from . . . \$2.75

### REPEAL PREFERENCE TO AMERICAN SHIPS

Washington, D. C., Oct. 9.—If the consent of Representative Underwood and other House leaders can be secured, a joint resolution will be passed through congress within a few days repealing that portion of the new tariff law authorizing a 5 per cent. tariff rebate on goods brought to this country in American-owned ships.

The decision to consider the repeal of the clause was reached by administrative officials, after experts of the state and treasury departments had decided that to carry out its exact terms would mean a reduction of 5 per cent. on tariff goods from practically all the chief exporting countries, except Brazil, France and Russia.

### POSTAGE ON NEWSPAPERS.

London, Oct. 9.—The bill introduced some years ago facilitating the circulation of Dominion newspapers in the United Kingdom is now operative. Under its provisions, copies of any publication published in any part of the empire will have the benefit of the half-penny inland rate, provided such publication is registered with the British post office as a newspaper and is posted in and addressed to any place in the British Isles. Any publisher desiring to take advantage of the act should put some person in this country in a position to make application to the British post office and satisfy them that he is a representative publisher.

Jews are not permitted to buy land in Russia.

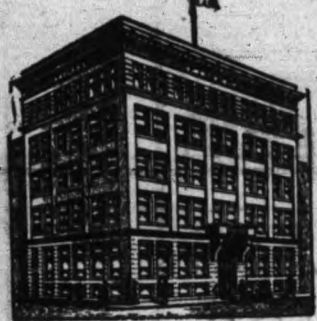

### WALKER BEATEN.

Moose Jaw, Oct. 9.—Clarence Eklund, of Moose Jaw, wrestling for the first time as a middleweight, last night annexed the middleweight championship of Canada when he defeated George Walker, of Vancouver, in a contest under Police Gazette rules. Eklund, strong and full of fight, took the first fall in one hour and twenty-eight minutes, when Walker gave up, stating sickness as his reason.

### HORSEMAN CRITICALLY ILL

Toronto, Ont., Oct. 9.—Seized with a paralytic stroke yesterday morning, Mr. Robert Davies, the well-known horseman, lies at his house, "Tadmorden," in a precarious condition. Mr. Davies is 64 years of age.

### THE COAL SITUATION.

A correspondent writes enclosing an advertisement clipped from the Seattle Post-Intelligencer. The clipping is an advertisement announcing that Wellington coal is again on the market in the Sound city. The correspondent thinks there is in this announcement an opportunity for a strong article on the coal situation in Victoria. We are not quite sure about that. Under the new tariff now in effect in the United States coal is admitted to that country free of duty. Vancouver Island coal is of vastly superior quality to anything of the kind produced elsewhere on the Pacific coast. The cost of transportation from Wellington to Seattle will probably not be higher; we should not be surprised to be told that it is lower than from Wellington to Victoria. It is therefore the most natural thing in the world that Vancouver Island coal should find its way to the Seattle market and it is also very natural that the consumers of coal in Seattle should prefer it to an inferior article. We have not the least doubt that there will be a brisk demand for our fuel all along the coast, not that enterprising dealers on the other side will let their utmost to meet that demand and make what they can out of it. The situation therefore is that already the American people, wiser in their generation than we are in ours, are benefiting from the removal of unwise and indefensible restrictions upon trade.

But if our correspondent means that there is a possibility of the coal consumers of Seattle obtaining our coal at lower prices than we shall be compelled to pay for the same article, that of course is another matter. In that case there would be legitimate ground for a strong protest. And yet there might be something to say on behalf of our local coal dealers. They can report that almost every article that enters into consumption in Victoria is materially higher in price in Victoria than it is in Seattle, and why should they be specifically singled out for criticism? If the Times were as snugly self-satisfied as a contemporary, it might shuffle the whole thing upon the shoulders of the people and say they are responsible; but, while there is a measure of responsibility upon the people, there is a larger measure of responsibility upon those who willfully, deliberately and selfishly misled the people. The American people are in a happier and more hopeful position than Canadians to-day because they have chosen wiser men to guide, the destinies of the nation, leaders who have taken a first and most important step towards pulling down barriers to trade greed and rapacity had been building up for almost half a century.

### GROSSLY UNFAIR.

The acting Premier has shown no signs of relenting in his attitude on the remuneration of the soldiers who were called out to preserve order in the strike district because his own machinery had been found incapable of coping with the situation. A few days ago the city council of Vancouver declined to authorize the pay of those employees of the corporation who were ordered out for service during the time they were stationed on the island. Employees in other callings have been similarly treated. There is much to be said in favor of the position assumed by the employers. The men were taken from their employ, in many cases causing a serious dislocation of their business arrangements, and the authorities who ordered them out should be responsible for their remuneration during the time they are on military duty.

The militia act provides that the men shall receive a dollar per day and a certain allowance for living expenses. Consequently most of the troops, if not all, are out of pocket because of

their service. This is grossly unfair, and the provincial government, at whose behest the militia took the field, should appropriate a sufficient sum to increase the allowance provided under the act to at least a normal rate. The same government pays its squad of special police \$2.50 per day. Surely it is not too much to ask that the militia who were ordered to the trouble zone in order that the specials might perform their duties unmolested receive an equal amount.

The act stipulates that the ultimate responsibility for the cost of the military in cases of this kind shall rest with the civil authority in organized districts. This means that Nanaimo, Ladysmith, and possibly Cumberland, will be expected to meet the expense incurred within their municipal limits. But in the unorganized districts, such as Wellington and Extension, the provincial government is the responsible authority and must pay the cost. How much is it paying the soldiers serving in those localities? Is it the beggarly pittance of one dollar per day or is it \$2.50 per day, the rate granted to the special provincial constables?

Bearing in mind the fact that the soldiers were called out to restore order out of the chaos which would never have arisen had the provincial authorities done their duty in the original instance; that they were ordered on strike service at the instance of the Attorney-General himself; that they responded with admirable promptitude and performed their duties with thoroughness, tact, and consideration which won them widespread respect, they are entitled to more substantial recognition than is afforded under an act drawn up in the first place with an eye to cheap service conditions in the east. The Attorney-General has no compunctions in presenting the princely hand-out of \$50,000 to the middlemen who negotiated the sale of the Kit-silano reserve, but he has nothing to give the men who saved him from the humiliation involved in the failure to restore law and order in the strike-troubled districts on this island.

### RESTRICTIONIST LOGIC.

"There is one fact that emerges from the utterances of Sir Wilfrid, namely, that he is as eager as ever in his support of reciprocity. He thinks that the Dominion, with its production of 200,000,000 bushels of wheat annually, should find a larger market for it in the United States. Does it ever strike him that at present half of Great Britain's cereal food supply finds its way to that country through the Mediterranean. Here, it appears to us, is a suggestion of a larger market for Canada's wheat which would be far better utilized for consumption within the Empire than if sent to a foreign country. The trend of modern trade development is, as far as the Empire is concerned, the fostering of inter-imperial commerce."

This is a Colonist sample of the political economy of the average trade restrictionist, demolished by facts known to anybody who even casually considers the subject. The British market consumes less than 100,000,000 bushels of wheat. This is supplied by India, Canada, Argentina and by other sources in lesser quantities. Canada can never hope to be the sole granary, for the very conclusive reason that it is British policy to buy in every quarter of the world. Our contemporary amply demonstrates this by its observation that half of Britain's cereal supply passes through the Mediterranean—India being the source of it. Britain buys from Argentina also, and it is British money which is developing the wheat fields of that rich country. For every seven dollars that flow from Britain to Canada ten go to the Argentine Republic. Canada may become the largest individual wheat exporter to Great Britain, but she will never monopolize the supply. But let us suppose that British people suddenly became afflicted with lunacy, declined to buy from India and the Argentina, where so much of their capital is invested, and decided to obtain every bushel of wheat they require from Canada. It will not be long, according to Mr. Foster and Mr. Rogers, before Canada will be producing annually four and five hundred million bushels of wheat. The British market consumes less than 100,000,000 bushels.

What are we going to do with our surplus? Shall we let it rot on the prairies? What the prairie farmers want is access to the United States market. It is only a few hundred miles away, and the price of their product there is higher than it is anywhere else. They would then have wider markets. Under the peculiar doctrine of our contemporary their markets should be restricted.

"The trend of modern trade development is, as far as the Empire is concerned, the fostering of inter-imperial commerce." Is it? In his budget speech on May 12 Hon. W. T. White, Canadian Minister of Finance, said that Canada's total trade with the world was more than a billion dollars. Of this amount our trade with the United States was \$558,455,018, the imports alone from south of the line being \$455,783,343. This was an increase of \$142,300,000 over our total trade with the republic in 1912, and an increase over the figures of 1911 by \$200,000,000. Our total trade with Great Britain was \$216,024,200, an increase of less than

\$50,000,000 over the total of 1912. In other words, our trade with the United States is nearly twice as great as that with Great Britain, while the rate of increase is nearly three times as much. The proportion to date for this year is even larger. That "fostering" process to which our contemporary alludes is making very slow progress.

### IT IS THE LAW.

The Ottawa government is reported to have received protests against its attitude towards those well-meaning but misguided individuals in certain parts of this country who have expressed their desire to filibuster in Ulster. But the federal authorities have no other recourse than to use every means in their power to prevent men from taking part in the threatened uprising. The law declares that it is a crime to aid any body of men who endeavor by force to compel the King to change his counsels or to overawe parliament in the same way. This is what is proposed in Ulster. Sir Edward Carson has armed his followers for the purpose of bloody revolt—provided those antiquated Italian rifles will go off—if the British government insists upon adopting Home Rule for Ireland. Clearly, then, it is the duty of the Canadian government to intervene in any proposal on this side to send men to fight against the King in Ireland, and the Canadian people will stand solidly behind it when it does so.

The Issaquah & Superior Coal Mining Company announces for the benefit of the people of Seattle that it and the Vancouver-Nanaimo Coal Company are one and the same and that their product will be marketed in Seattle. The attention of Premier Borden of Canada should be called to this. It portends an interlocking of trade between Canada and the United States which he denounced so scathingly a couple of years ago. That sort of thing should be nipped in the bud, because it means an increase of "truck and trade with the Yankees." Will Mr. Borden place an export duty on coal to save us from the dire consequences of this interlocking of trade and business?

A Saskatoon newspaper quotes a bank manager as saying there is a trust controlling nearly every food industry in Canada, with prices seeming to confirm the statement. If conditions are as represented, there is only one remedy for the evil. The public may try all sorts of schemes of controlling and "busting" the trusts, but there is only one sure cure. That is to abolish the taxes on food. With importations unrestricted, the formation of trusts would be a difficult, if not an impossible, matter. Britain will not countenance food taxation, and although she must import the bulk of her food-stuffs, her people are the cheapest fed in the world and the best fed in Europe.

A week ago the federal cabinet refused to intervene in the case of a Toronto man sentenced to be hanged to-day for murder. The trial judge also expressed the opinion that the verdict was a just one. But there was a strong sentiment in favor of the unfortunate man and the cabinet has now changed its mind and commuted the sentence to imprisonment for life. This is a dangerous practice and any repetition of it will make Canada as notorious a happy hunting ground for desperate criminals as the United States. Politics, of course, caused the executive to alter its attitude. It is time Hon. C. J. Doherty returned to Ottawa.

Is it not time for mere men to commence an agitation for equal rights? A poor chap adjudged guilty of a minor offence was sentenced to jail in England for a short term. He thought he could escape the consequences of his folly by entering on a hunger strike. And the callous authorities let him starve to death. They did not even have the humanity to attempt to save his life by forcible feeding. Why this discrimination in favor of one sex? Of course there may be a lesson in the incident, but we confess a lack of the courage necessary to read it, or rather to print it.

The Colonist persists in saying that we have been guilty of misrepresenting its views on the question of the high cost of living. We think our contemporary is mistaken. At any rate we know we have never been guilty of what was at one time a capital offence, and would probably be a capital offence to-day if the political element for which the Colonist speaks had remained in the ascendancy.

Canada negotiated a trade treaty with the West Indies. To facilitate the exchanges under it a steamship company is heavily subsidized for a service between the two countries. But Canada has to pay the entire amount of the subsidy, which is so high that the minister does not care to make the figure public.

Who were the people who attempted to bribe our aldermen? The public are entitled to know. Surely they have not become so apathetic on public questions that they can afford to allow the charges made at Monday night's meet-

ing to pass unchallenged. A commission should investigate at once.

### FOSTER'S TRUE OPINION.

(Woodstock Sentinel-Review.)  
Hon. George E. Foster is quoted as saying that there is no such dispute in Australia and New Zealand about the proper way to take part in imperial naval defence as there is in Canada. Does Mr. Foster intend this statement as a rebuke to his political friends? Whether he does or no it is a fact that there was no dispute in Canada until Mr. Foster's friends raised one, for having to have Mr. Foster's candid opinion of the course his political friends have been following in regard to the same navy question. He has placed on record his opinion as to the proper course to be pursued by Canada and there is perhaps no severer criticism existing of the Conservative naval policy to-day than that same opinion.

### TO THREE AT A TIME?

From the Pall Mall Gazette.  
One day in a bus Mr. G. K. Chesterton, the well known writer, gave up his seat to three ladies.

## SPEAKS OF GREAT WORLD CONVENTION

Rev. I. W. Williamson, Vancouver, Was at Notable Sunday School Gathering

Rev. I. W. Williamson, general secretary of the Provincial Sunday School Association, is visiting the city in connection with the convention which is being held here at the present time. Mr. Williamson has just recently returned from Europe, where he went as an official delegate to the World's Sunday School convention held at Zurich, Switzerland, some months ago. "The convention," said Mr. Williamson to a Times reporter, "was one of the most remarkable religious gatherings of the Christian age, I suppose. There were nearly three thousand delegates, representing seventy different nationalities, present, and over fifty languages were spoken in the convention. A large number, nearly 250, foreign missionaries were there, and by special invitation from the business men of Tokyo, Japan, that the next convention should be held there in three years' time, the convention decided to accept."

"I afterwards went to England," continued the speaker, "where I had the privilege of lecturing under the auspices of the great Brotherhood movement which is the most remarkable movement which England has had for many years for the propagating of the social Gospel which has become so necessary in this age. I addressed big congregations of men, ranging from a thousand to twenty-four hundred, in some of the largest centres in Great Britain, altogether speaking to over 45,000 people during my visit there. I also met and interviewed many of the members of parliament and some of the greatest of the Christian leaders of the country. Among the former were Mr. Keir Hardie, in whose constituency I addressed a large meeting."

Mr. Williamson studied social conditions in the old land during his stay there, and was evidently greatly impressed with the wonderful opportunities for work. Nearly everywhere he went he was struck by the willing ear which business men lent to any sane proposition of applied Christianity.

At the present time the general secretary of the Sunday Schools for this province is working on the organization of the provincial Sunday school convention which is to meet in Vancouver from October 21 to 24, and when, he says, they are to unite with the leaders of the boys' department of the Y. M. C. A. in a special study of work among boys. The two specialists who are coming to the convention are men of national and international reputation. Mr. Taylor Statten is the national secretary of the boys' work for the Y. M. C. A. in Canada, and John L. Alexander, who was for some years the general secretary of the Boy Scouts of America, and author of the "Boy Scouts' Manual," is the superintendent of the "Teen Age" division of the International Sunday school. These, together with other great leaders who will be present at the convention, should, said Mr. Williamson, make the gathering this year one of the most fruitful ever held in the province.

During his present visit to the city Mr. Williamson is the guest of Mr. and Mrs. H. A. Howell, of Davis street, but expects to return to Vancouver on Saturday.

## A Big Sale of Men's Cravenette Overcoats at \$7.50 and 200 Dozen Men's Fall Shirts at \$1.00 Go On Sale Friday

## A Big Sale of Men's "Progress Brand" Cravenette Overcoats—Friday \$7.50

THIS sale represents a manufacturer's surplus stock of one hundred Cravenette Coats that we were fortunate in securing at a very special price. They are a brand of Coats that

is so well-known that very little comment here is necessary. They come in a smart style, and you can choose from the two-way collar or the plain style and from colors fawns, greys, browns, stripes and mixtures of greens. They are light-weight Coats, yet warm and comfortable to wear, and are thoroughly waterproof. Not a coat in the lot worth less than \$15.00, and most would sell considerably higher. For further particulars see the samples displayed in the View street windows. Your choice Friday for

\$7.50

## 200 Dozen Men's Fall and Winter Shirts Go On Sale Friday and Saturday, Regular Values \$1.25 to \$1.75 for \$1.00

NOW comes a big sale of Men's Shirts, just at an opportune moment when most men are replacing their thin summer garments for warmer ones. A careful study of the following particulars and the goods in the View street windows will at once convince you that there are some splendid bargains to be had and that this is one of those rare opportunities that's not to be missed.

Union Flannel Shirts, imported, and in a medium weight, in fancy stripes, cut full size in body, well-made. Some finished with collar band and others with attached turn-down collars. Special, Friday and Saturday, Each .....\$1.00

Men's Imported Shirts, Lingola brand, made from a fine quality of flannelette in light fancy stripes, finished with collar band and soft hand cuffs. All sizes from 14 to 17. Friday and Saturday, special, each .....\$1.00

—Main Floor

## Two Important Offerings in Women's Waists, Regular Values to \$1.75—Friday 75c

One offering is a line of all-white Fancy Waists and includes some remarkable values in lingerie muslin and linens. There's a very wide range of neat and pretty styles, some having all-over embroidered fronts in a variety of designs; others are tucked and trimmed with lace insertions, and one very pretty style comes in vest effect of net and ratine finished with crocheted buttons. You have your choice from high and low necks, also Robespierre collars, three-quarter and full length sleeves. A style here to suit the most particular woman in town. Regular values to \$1.75. Friday.....75c

The Other Offering comes in the plain-tailored and shirt waists, with French double collars and link cuffs, some finished with pocket. These are all in striped effects and include a very big assortment; black blues and helio; also French grey with mole and black stripe, and white grounds with black, blue and grey stripes. These are guaranteed fast dyes and a remarkable quality material for wear; they wash and launder like new. See these goods displayed in the View street windows. If strong values are any criterion then there will be a big rush for these on Friday morning. Regular values to \$1.75. Friday.....75c

## Ladies' Underwear—Specials for Friday

IF the weather during the past few days is any criterion then, it's quite time to change your thin undergarments for the thick, warmer kind. Many a person has caught a severe chill during the early fall through neglecting to don warmer underclothing in time. Don't let this be your case. Here's a few special values that go on sale Friday—that should cause brisk selling. All the garments are of reliable make and finish and can be depended on for wear.

Women's Vests, the Winsome brand. Made from a woolen mixture in a fine knit, long sleeves, button front, and neck finished with ribbon. Each .....50c  
Women's Drawers, same make as above, in ankle length, open and closed styles. Each .....50c

**Cores, Pares and Slices at One Time**. That's what the Little Star Apple Corer, Parer and Slicer does. Simply put apple on the spike, turn the handle, the machine does the rest. Easy to clean, 75c. at R. A. Brown & Co.'s, 1302 Douglas St.

**Save Money—Buy your gas at Wood Motor Company** for 50c per gallon, cash or coupons.

**Try Our Dry Cardwood** and solve the fuel question for the winter. Geo. Burt, 735 Pandora St. Tel. 528.

**Phone 964 for Good Millwood**. 3.00 double load. \$1.50 single load.

**The Umbrella Shop**, 610 Pandora St.

**Xmas Photo Special**—During October only—one dozen Corona folder portraits finished in silk texture platinum for \$6.75—regular price \$7.00. at the Skene Lowe Studio, corner Yates and Douglas streets. Sit early in the month.

**Baby Car Special**, 75c. Fort St.

**"Shell" Gasoline** Purity means less for up-keep. Dispensed by the Red Sentry, 737 Broughton St.

**Prof. E. Claudio's Orchestra** will give a sacred concert at the Victoria Theatre every Sunday evening at 8.45 o'clock, commencing October 12, 1913. Admission free.

**Skates at R. A. Brown & Co.'s**, 1302 Douglas St.

**Wanted to Purchase**—Good agreements for sale at reasonable rates. Colonial Trust Company, Limited, Merchants Bank Building.

**Try New Life—Relieves pain instantly.** Free demonstration. Special prices, 721 Yates St.

**Buy a Cord of Our Dry Wood** and have peace in the family for once. Geo. Burt, 735 Pandora St. Tel. 528.

**Interesting Paper Read**—"The Life of John the Baptist" was the subject taken up by the young people of Wesley Epworth League of Christian Endeavor on Monday evening last. Interesting papers were read: Misses Latham and Beattie and Mr. McKenzie. A chain prayer took the place of the usual roll call.

**"Nag" Roof Compositions** are fireproof and add years to the life of an old roof. Geo. Newton & Greer Co., 1336 Wharf Street.

**A Dance Will Be Given** in Victoria Club, Campbell building, Saturday, Oct. 11, 8.30. Tickets can be had at club or Mrs. Michael Hallward, 1028 Hulton. Phone L2381.

**Baby Car Specialists**, 758 Fort St.

**Eye-strain in Reading** should not be encouraged. If you are not comfortable or the type not continually clear in reading you probably need glasses. I never fail in supplying suitable reading glasses where it can be done at all—and you will always find my prices reasonable. Frank Clugston, Optician and Optometrist, 654 Yates street (corner Douglas), Suite 8. A business founded upon honor.

**Pleasant Entertainment—Every Old Fellow** should make an effort to be present at Dominion Lodge to-night, when Rev. E. G. Miller will give an address on "The Emblems of the Order."

**Contractor Arrives**—On his first visit to the coast is Arthur MacArthur, Jr., of MacArthur Bros., New York, who have the contract for 35 miles of the Kettle Valley Railway from Hope to Coquihalla Summit. As he is not yet familiar with the conditions to be met with, he was not prepared to set a date for the completion of the line.

**Social Service League**—At a meeting of the committee of the Social Service League on Monday afternoon a complete programme for the year, until and including May 15, 1914, was drawn up, and this will be submitted for the approval of the society at a meeting of the society next Monday evening at the old Congregational church, Pandora avenue, on Monday, October 13. What drives, dramatic entertainments, socials, etc., will form the greater part of the programme, and at Monday's evening the annual election of officers and committee will take place, followed by a social and dance.

**Protestant Orphanage Donations**—The following donations from friends of the Protestant Orphanage have been acknowledged by the ladies' committee: Clothing—Mrs. McCann, Mrs. Anderson, Mrs. Simpson, Mrs. J. D. McLean, Mrs. D. E. Campbell, Mrs. Burgess, Miss Nash, A. Friend, Fruit and vegetables—Mrs. J. W. Spencer, Mr. Borden, Mrs. B. Gonnason, Miss Glendinning, Rev. Dr. Currie, Mr. McCulloch, St. Mary's church, Oak Bay; R. Porter, G. M. Whyte, Buns—Fernwood Bakery, Sugar and biscuits—Cloverdale, Deer and \$1.00. Mrs. McLaman, Salt Spring Is. Ice cream and fruit—Mrs. R. Newton. Sugar, flour, tea, biscuits, syrup—Mrs. Fred Landsberg. Receipted account—W. S. Terry, Times, Colonist, News and S. P. C. A. Magazine.

**Harvest Thanksgiving**—The annual harvest thanksgiving of St. Mark's church, Bolekine road, will be held this evening. There was a celebration of the Holy Eucharist at 8.30 o'clock morning, and this evening at 8 o'clock a sermon by the bishop of the diocese. After the service there will be a social gathering in the hall adjoining the church, and refreshments will be provided by the ladies' guild.

**Navy League Chapter**—The Navy League Chapter of the I. O. D. E. met yesterday afternoon at the King's Daughters' Rest Room, Courtney St., the regent, Mrs. W. J. Koper, in the chair. It was decided that the chapter should make arrangements to have a wreath placed on the Nelson Monument in London, England, on Trafalgar Day, and the meeting also arranged that a prize should be offered to the school children of the city between the ages of 12 and 16 for the best essay on H. M. S. New Zealand.

**Secretary Resigns**—At a general meeting of the Real Estate Exchange on Wednesday evening, October 3, the resignation of Randolph Stuart, secretary, was received with regret, and the appointment of Charles J. Wright confirmed, the change taking place on November 1. A special general meeting was called for October 15 at 8 p. m., when the subject of transportation will be discussed, and able speakers will talk on the subject. All members of the Real Estate Exchange are expected to attend. A programme for the winter's entertainment will be presented to the members.

**THE HILLS OF STRIFE**. A powerful two-act melodrama of the Kentucky Hills picturing the bloody work of a feud which has been waged for generations, to end in almost extermination. Men, women and children involved and fall in the track of the deadly Winchester. One woman snatches a child from the arms of its dead mother, who was an enemy and brings the boy up to fight against his own blood. Years pass and the feud flares up again, and in the battle the father is about to slay his own son, when the foster-mother throws herself in front of the gun and, dying, tells who the boy is. "Scenes in Honour" is a travel picture. "Her Way" is an interesting playlet. "Pathe's Weekly" is an unusual good number. "The Tables Turned," hilarious Vitaphone Comedy. This delightful programme will be shown at the Majestic to-day.

# TWENTY-FIVE YEARS AGO TO-DAY

Victoria Times, October 9, 1888.

At the city council last evening the closing of all places of amusement on Sunday, particularly the Chinese theatre, was under discussion in connection with the Public Morals by-law.

A resident of Comox informs the Times that not a settler has gone in there since December, and says the railway company will not sell land for less than \$3 an acre cash.

Canadian Pacific Navigation Co.—Burrard Inlet Route. Leave Victoria for Vancouver daily except Monday at 2 o'clock. Leave Vancouver for Victoria daily except Monday at 12.30 o'clock, or on arrival of the C. P. railway train.

We hear from the coal miners that now that coal is high in price their remuneration should be increased, according to a promise made to them. A strike is said to be imminent.

Arrangements are being made for the holding of services by D. L. Moody in the roller skating rink, Yates street, on his arrival from San Francisco.

**Ladies' Aid, St. Paul's Church**—The Ladies' Aid of St. Paul's Presbyterian Church, Victoria West, will hold their twenty-second anniversary social and concert on Wednesday, October 15, at 8 o'clock. No admission will be charged, but a collection will be taken during the evening. Refreshments will be served by the ladies of the society, and a musical programme will be provided during the evening.

**Car Overtaken**—William Oliphant was injured and his two sons badly bruised on Friday when the automobile in which they were travelling turned over, all being thrown out. They had been hunting in Saanich. The car pinned Mr. Oliphant underneath. Three guns in the car fortunately did not explode with the shock. The sons are about again but the father is still confined to his rooms.

**Union Missionary Meeting**—At the Union Missionary meeting of the Ladies' Mission Circles of the Baptist churches of the city Tuesday afternoon at the Emmanuel Baptist church, Mrs. Frank Andrews presided, and a feature of the afternoon was an interesting address delivered by Mrs. A. A. McLeod, a missionary recently returned from India. Tea was served at the close of the proceedings by the young ladies of the church.

**Young Ladies' Club**—The first meeting of the Young Ladies' Club of the Metropolitan Church for the present season was held last night in the schoolroom of the church, Miss Foxall, the president, in the chair. Several matters of business were discussed, including the disposition of the finances raised during the year. Miss W. Bell and Mrs. J. G. Burnett provided a musical programme, and during the evening a doll-dressing competition was held.

**Development League**—Several letters from intending settlers from Ireland were among the correspondence recently received by the Vancouver Island Development League. Other inquiries came from England, South Africa, Brantford, Ont., and other places. One inquirer is a prominent heating and ventilation engineer of England who has made several well known and widely used improvements in heating systems.

**Harvest Thanksgiving**—The annual harvest thanksgiving of St. Mark's church, Bolekine road, will be held this evening. There was a celebration of the Holy Eucharist at 8.30 o'clock morning, and this evening at 8 o'clock a sermon by the bishop of the diocese. After the service there will be a social gathering in the hall adjoining the church, and refreshments will be provided by the ladies' guild.

**Navy League Chapter**—The Navy League Chapter of the I. O. D. E. met yesterday afternoon at the King's Daughters' Rest Room, Courtney St., the regent, Mrs. W. J. Koper, in the chair. It was decided that the chapter should make arrangements to have a wreath placed on the Nelson Monument in London, England, on Trafalgar Day, and the meeting also arranged that a prize should be offered to the school children of the city between the ages of 12 and 16 for the best essay on H. M. S. New Zealand.

**Secretary Resigns**—At a general meeting of the Real Estate Exchange on Wednesday evening, October 3, the resignation of Randolph Stuart, secretary, was received with regret, and the appointment of Charles J. Wright confirmed, the change taking place on November 1. A special general meeting was called for October 15 at 8 p. m., when the subject of transportation will be discussed, and able speakers will talk on the subject. All members of the Real Estate Exchange are expected to attend. A programme for the winter's entertainment will be presented to the members.

**THE HILLS OF STRIFE**. A powerful two-act melodrama of the Kentucky Hills picturing the bloody work of a feud which has been waged for generations, to end in almost extermination. Men, women and children involved and fall in the track of the deadly Winchester. One woman snatches a child from the arms of its dead mother, who was an enemy and brings the boy up to fight against his own blood. Years pass and the feud flares up again, and in the battle the father is about to slay his own son, when the foster-mother throws herself in front of the gun and, dying, tells who the boy is. "Scenes in Honour" is a travel picture. "Her Way" is an interesting playlet. "Pathe's Weekly" is an unusual good number. "The Tables Turned," hilarious Vitaphone Comedy. This delightful programme will be shown at the Majestic to-day.

**Harvest Thanksgiving**—The annual harvest thanksgiving of St. Mark's church, Bolekine road, will be held this evening. There was a celebration of the Holy Eucharist at 8.30 o'clock morning, and this evening at 8 o'clock a sermon by the bishop of the diocese. After the service there will be a social gathering in the hall adjoining the church, and refreshments will be provided by the ladies' guild.

**Navy League Chapter**—The Navy League Chapter of the I. O. D. E. met yesterday afternoon at the King's Daughters' Rest Room, Courtney St., the regent, Mrs. W. J. Koper, in the chair. It was decided that the chapter should make arrangements to have a wreath placed on the Nelson Monument in London, England, on Trafalgar Day, and the meeting also arranged that a prize should be offered to the school children of the city between the ages of 12 and 16 for the best essay on H. M. S. New Zealand.

**Secretary Resigns**—At a general meeting of the Real Estate Exchange on Wednesday evening, October 3, the resignation of Randolph Stuart, secretary, was received with regret, and the appointment of Charles J. Wright confirmed, the change taking place on November 1. A special general meeting was called for October 15 at 8 p. m., when the subject of transportation will be discussed, and able speakers will talk on the subject. All members of the Real Estate Exchange are expected to attend. A programme for the winter's entertainment will be presented to the members.

**THE HILLS OF STRIFE**. A powerful two-act melodrama of the Kentucky Hills picturing the bloody work of a feud which has been waged for generations, to end in almost extermination. Men, women and children involved and fall in the track of the deadly Winchester. One woman snatches a child from the arms of its dead mother, who was an enemy and brings the boy up to fight against his own blood. Years pass and the feud flares up again, and in the battle the father is about to slay his own son, when the foster-mother throws herself in front of the gun and, dying, tells who the boy is. "Scenes in Honour" is a travel picture. "Her Way" is an interesting playlet. "Pathe's Weekly" is an unusual good number. "The Tables Turned," hilarious Vitaphone Comedy. This delightful programme will be shown at the Majestic to-day.

**Harvest Thanksgiving**—The annual harvest thanksgiving of St. Mark's church, Bolekine road, will be held this evening. There was a celebration of the Holy Eucharist at 8.30 o'clock morning, and this evening at 8 o'clock a sermon by the bishop of the diocese. After the service there will be a social gathering in the hall adjoining the church, and refreshments will be provided by the ladies' guild.

# EXPOSITION MENDELSSOHN PIANOS

Don't fail to see the magnificent display of Pianos of this famous line which we have in our Showrooms. We have purchased the entire exhibit of these Pianos at the Toronto National Exposition, an exhibit that attracted widespread attention because of its excellence.

As these instruments were made especially for the Exposition, you may rest assured that they represent the highest quality of workmanship and material. The judges accorded them unstinted praise.

These Pianos are splendid examples of the best modern case architecture and finish. They have the famous Mendelssohn action, producing a sweet, full, rich tone that is lasting.

Finished in Mahogany, Figured Walnut and other woods, these Pianos will sell rapidly at the unusually low prices of

**\$325 \$350 \$375 \$400 \$450**  
Any reasonable terms arranged.

# REPAIRING VALVE

Prospect of Early Settlement of Differences Between Waterworks and Railway Companies Bright

No action was taken to-day on the writ issued by Henry G. Lawson on behalf of the British Columbia Electric Railway Company against the Esquimalt Waterworks Company for an injunction to restrain the defendants from cutting off the supply of water to the works of the plaintiff at Goldstream and for a mandatory injunction requiring the defendants to supply through their pipes to the works of the plaintiff a quantity of at least 15,000,000 gallons a day for at least 100 days. The prospect of an early settlement of the differences between the two companies is very bright.

E. B. Halliwell, secretary of the Esquimalt waterworks stated this morning that the outlook for an agreement that would be convenient to both parties was very hopeful.

The Waterworks Company have men working to-day on the great 30-inch valve which burst on Monday, entirely cutting off the supply to Goldstream plant. The work is necessarily very heavy on account of the immense size of the valve; it takes a one-ton chain block to lift the spindle. The company, however, hopes to have the job finished by to-night.

# DISTINGUISHED SINGER.

Although still but a very young woman, Mme. Frances Alda, who is to be heard at the Victoria theatre on Friday, October 17, has been notable for qualities of maturity in her accomplishments such as are achieved by few at so early a stage in their career. Her first appearance at the last season of the Metropolitan was as Desdemona in the Verdi masterpiece, "Otello," and in this she gained a personal triumph of artistry. The Otello was Leo Slezak, who made such a great impression here last spring. Extraordinarily gifted and sincere, Mme. Alda aroused the enthusiasm of her audiences in New York and Boston by her Roxane in the Darnoch-Henderson opera "Cyrano." In her present concert tour of Canada and the United States she has been heard in the chief cities on the continent. Frank Le Forge, concert pianist and accompanist, has been heard in Victoria, and will be welcomed back.

# NEW MEMBERS ADMITTED.

At Board of Trade Quarterly To-morrow Application For Membership Will Be Considered.

New members of the Board of Trade will be elected at to-morrow's quarterly meeting. Any desiring to become members are requested to communicate with the secretary as early as possible.

Regular procedure will be followed at the meeting, and it is expected that the chairman's address will be on this occasion of unusual interest owing to the varied subjects which have been dealt with by the board during the past three months. It is expected that in view of the absence of President J. J. Shillcross in the Old Country, the chair will be occupied by the Vice-president, Col. E. G. Prior. The meeting is to start promptly at 3 o'clock.

**Want Uniform Laws**—At its meeting to-morrow the Board of Trade will deal with a communication from the Canadian Credit Men's Association, of Winnipeg, requesting the board to write the attorney-general of the several provinces of Canada, asking that the laws of the several provinces be made as uniform as possible.

**Bridging on E. & N.**—The east coast extension of the Esquimalt & Nanaimo railway is now finished as far as the Little Qualicum river, a distance of nine miles. The section of the steel trestle across the river is now in hand and is expected to be completed in the course of the next few weeks.

**Had Good Rehearsal**—The second weekly rehearsal of the Victoria Choral Society took place on Tuesday evening at the King's Daughters' rest room, Courtney street, Mr. Macey, the society's new hon. conductor, presiding. That everyone was interested and pleased with the programme of music chosen by the committee for the next concert was proved by the excellent attendance and enthusiasm displayed by all present. The society welcomes quite a number of new members, but has still vacancies for more. Ladies or gentlemen wishing to identify themselves with this old established and important factor in the musical life of Victoria, are requested to present themselves without fail at the next rehearsal which will take place as usual, at 8 p. m. at the rest room next Tuesday evening.

## Shipping News from Day to Day

### BONILLA LIGHT TO WAIT TILL SPRING

New Lighthouse Not Likely to Be Started After Heavy Weather Starts

It is not likely that work on the construction of the new first order lighthouse on Bonilla Island will be started until next spring, owing to the fact that the winter season is almost here. At one time it was thought that the marine department would make a start before the bad weather set in, but the site for the new aid to navigation in Heate Strait is not expected to be the scene of any activity until the appearance of fine weather next year.

The erecting of this fine first order light will be of great assistance to shipping on this coast. It will be the third light of this class to be established in northern waters. At Langara a 450,000 candle-power light flashes its rays across the Pacific, and by the middle of next month the great beams will flash forth from the Cape St. James tower. The Bonilla light will be the first sighted by steamships heading for Prince Rupert after they are outside the range of the Triangle light-house.

Quadrant Due Home. After a five weeks' trip to northern waters the lighthouse tender Quadrant, Capt. LeBlanc, is expected to reach port about Monday of next week. The vessel has carried out a great deal of important work during her last cruise. She went from here to Langara Island and the big light there was adjusted and placed in operation. Then the Quadrant shifted to Massett, where the new range lights in the inlet were established. The new beacon on Ross Spit was also set in place and lighted, and later she headed for Cape St. James to land some material for the lighthouse there.

The Quadrant will be dispatched from port almost as soon as she can be loaded as the marine department is anxious to get through all the work possible before the heavy storms make work hazardous and a hardship.

### FRISCO'S MARINE NEWS

San Francisco, Cal., Oct. 9.—The British steamer Auchincloss has been chartered by Scott Henderson & Co. for lumber from Puget Sound to Australia. The vessel was last reported at Coronal, and is thought to be on her way north in ballast now. The Charles Nelson Company, agents, will load the Auchincloss.

It has been reported that chartering for next spring has commenced, one vessel being already fixed for lumber from Puget Sound to the United Kingdom for 77s. 6d. This rate indicates a belief in a steady market.

The new Pacific coast liner Congress here from the East, will receive an overhauling before going on the regular run to the north. As soon as she is ready, either the Governor or the President will be laid up for conversion into an oil-burner. Seattle parties having got the contract on a competitive basis of \$35,000. The Congress will be open for inspection here before leaving for the north.

Captain Newt Jordan, formerly a San Francisco pilot, has returned here from England after an absence of nine years. Captain Jordan is probably the best known pilot on the Pacific coast, and is known personally by every shipping man from Alaska to Mexico. Mr. J. Wright, general agent of the Pacific coast line at Vancouver, has arrived here to take the position of chief clerk in the general freight office. Mr. Wright was formerly the company's agent at Seattle.

Patent medicines yield over \$200,000 to the Exchequer per annum in duty.

### ROYAL MAIL SENDING ANOTHER SHIRE BOAT

Merionethshire Will Appear Here in January; Followed by Liner Glenroy

Findlay, Durham & Brodie, agents here for the Royal Mail Steam Packet Company, have been advised that the steamship Merionethshire has been fixed to load at European ports this month and will leave London for Victoria on October 25, and is due to berth here on January 25. Following the Merionethshire comes the Glenroy, which is slated to clear from the Thames on November 22, and she will reach William Head February 25. The December sailing from Liverpool is Cardiganhire and she will be here on March 15.

The Royal Mail officials are paying a great deal of attention to the new service which they have inaugurated between Europe and the Pacific coast. Business inward at present is not exceptionally heavy, but on all outward voyages the ships are filling up with cotton, wheat, flour, lumber, fish and general cargo. The way the freight has offered to a new entry into this trade is surprising. The great reputation which the Royal Mail line has made for itself has helped considerably in the company getting off to such a fine start. The company is sending a fine class of freighters to this coast and later when the passenger business warms ships with accommodation for travellers will be dispatched here.

Den of Glamis Next. The next Royal Mail liner to appear on this coast will be the Den of Glamis, which the agent looks for on October 25. She has some cargo for this port. The Den of Glamis is reported to be following the Glenroy to this coast.

### HINDUS ABOUT START FREE-FOR-ALL-FIGHT

Animated Scene at Outer Docks Just Before Empress of Russia Sailed

Prospects for a good free-for-all fight were very bright at the Outer Docks last evening just prior to the sailing of the C. P. R. liner Empress of Russia, Capt. Beetham, for the Orient. A large number of Hindus were keyed right up to the point of letting drive their fists and a bad mix-up was imminent. The trouble was all over a mattress, which several of the turban-headed men laid claim to, and before the uninterested sons from Calcutta could appease the tempers of their angry brethren, signs of a violent outbreak appeared several times. After the Empress was berthed the Hindu and Chinese passengers commenced to embark on the ship. About fifteen former residents of the great Indian Empire had been refused tickets earlier in the day, owing to the fact that all stateroom accommodation had been disposed of. They were all present on the dock, some very wrathful and others quiet. They were greatly disappointed at being unable to cross to the Orient on the white liner. Some tried to get on board without their tickets, but they were turned back by the immigration officers.

The Mattress Row. Just as one swarthy Hindu was about to step on the gangplank with

### Lighthouse Tender Bound Home From Long Cruise

This picture shows the vessel anchored in Banfield Creek with the lifeboat alongside.

his bundles thrown over his shoulders, he was jerked back by one of his fellow-countrymen. In a tongue unknown to whites these two men started to harrangue each other, while the other Hindus gathered around. The many sailor passengers on the Russia lined the rails to watch the incident. It was evident that the Hindu, who did the jerking thought he was the owner of the mattress, but the other one stoutly protested that he was the man who had purchased the "Restmore."

The angry one relieved his friend of the mattress and threw it on the dock. When the other threw down the mattress and threatened to beat his companion for he made a wide lunge for the other's chin. It missed. The other was not slow in falling in line, being ready to send in a vicious uppercut, when a number of the other Hindus, thinking that the thing had gone far enough jumped in and held the two fighting warriors. What followed rivalled the scene at the Tower of Babel. Between the jabber of the excited Hindus and the lines of the Chinese there was an awful commotion at the docks.

The man who appeared to be the rightful owner was allowed to pick up his mattress again and board the ship. An immigration official walked over to see what the trouble was and told the Hindu, who had been the cause of the trouble, to keep quiet. This increased the wrath of the Hindu and he said "you take the part of him." Then he walked over towards the official but the blood-curdling look he got was enough to warn him of the danger and his anger was quelled.

The Hindu who went on board there some money from the ship, which may have been in payment for the mattress. Anyhow no one received the money as it was seen to slip through the hands of the other Hindu and fall into the water.

CELTIC FROM LIVERPOOL.

The White Star liner Celtic, from Liverpool and Queenstown October 2, with 190 first, 495 second, and 673 third-class passengers, is due in New York to-day. Victoria passengers should arrive October 14. The Celtic, of the same fleet, reached New York yesterday.

### TORPEDO FISH HOLD BACK A STEAMSHIP

Reaches Boston Four Days Late Through Falling in With Peculiar Creatures

Boston, Mass., Oct. 8.—A remarkable story is told by the crew of the British freighter Rochelle, which has reported four days late from San Domingo. According to several of the men, the delay was due principally to electric fish, otherwise known as torpedo fish, which were attracted by the steel plates of the vessel and fastened themselves by hundreds against her bottom and sides.

The steamer was in the Gulf Stream north of Cuba when she began to slow down. The officers were at a loss to account for the change in the progress of the craft. Several sailors said they felt a tingling sensation about their feet and fingers. The steamer was held back strangely. Members of the crew became alarmed.

A sailor looked over the side, and said it was plastered with strange-looking fish. They were two or three thick along the port side under water. The starboard side also was covered, and those on board believe the fish extended to the keel plates.

As the Rochelle moved north and out of the warm waters of the stream the fish dropped off, and the vessel resumed her regular speed.

### SEATTLE AS TERMINUS OF LINE FROM BOSTON

Seattle, Oct. 9.—Leading Seattle business men and shippers next Saturday will make an effort to convince R. C. Emery, H. D. Cleveland and Harry Livermore, directors of the John S. Emery Company, big steamship line of Boston, that this port can provide them with enough business to warrant the company in making this city the terminus of a Boston-Puget-

### MILLIONS ARE SPENT TO FEED PASSENGERS

North German Lloyd Report Bills Paid to Butcher, Baker and Others

In these days, when the high cost of living is so much in the public mind, it is interesting to know what it costs a steamship company to provide the necessities of life to the hordes of passengers who cross and recross the Atlantic. The annual statement of the North German Lloyd for 1912, just issued, throws some interesting light on the subject.

Last year the company's bill for provisions alone was \$4,920,000, while during the same period the coal man was paid \$7,376,735 for 1,758,740 tons of coal which were shoveled into the maws of the ships' furnaces during the twelve-months. For these two items alone—provisions and coal—the company paid the enormous sum of \$12,296,735.

That seasickness does not always interfere with the appetite of ocean travelers is evidenced by the expenditure of almost \$5,000,000 for provisions. The butcher, as usual, reaped the greatest harvest in the matter of provisions, his bill to the North German Lloyd for the year having been \$1,665,000. This does not include fish and game; for the former the company paid an additional \$235,600, while the bill for the game amounted to \$412,360 a total of \$652,020. These two items added to the bill for meat proper, brought the amount up to \$2,367,920.

Heavy Bill of Preserves. On local household expenditures people are not likely to pay much attention to the cost of preserves, and yet the North German Lloyd spent \$25,760, over a quarter of a million dollars, for these sweets during the year. The bill for fresh vegetables amounted to \$125,110, while for "sundries," including bread, flour, spices, fruits, and the thousand and one articles that are used

## Will Talk on Cremation

Hindus Propose to Take Subject Up at Meeting Sunday; Wish Area Set Apart for Sikh Funeral Rites.

The Hindus of the city propose to hold a meeting on Sunday at the Temple to discuss the future of cremation for their fellow-countrymen in this city. Resolutions will be submitted and it is expected that the health authorities, in conjunction with the council, committee of the city, council, will inter approach the provincial board of health asking that some small area of crown land near the city be set aside for a separate burial ground, where the corpses may be consumed without inconvenience to anyone.

The Hindus feel that the last rights of the Sikh faith ought to be celebrated without interference, and as strong objection would be taken to any proposal to use Ross Bay cemetery, a resolution of this character is held to be the best.

## MAKING RUSH FISHING BOAT.

Seattle, Oct. 9.—Capt. Andrew Weidling, the veteran halibut fisherman who recently purchased the revenue cutter Rush, yesterday laid the contract for converting the famous old craft into a fishing steamer to the shipbuilding firm of Nilson & Co., whose yards are on the East waterfront. The contract for repairing the vessel's boilers was let to the Commercial Boiler Works.

Capt. Weidling purchased the Rush from the Alaska Junk Company, which acquired the steamer from the government at public auction a year ago for \$8,500. It is understood that Capt. Weidling paid \$11,000 for the vessel.

## Will Probe Shortage.

Mr. Robertson, weights and measures inspector, is looking into the amendment to the market by-law in order to check shortages in cord-wood. That the consumer is being robbed frequently he declares after his investigations and he wants to see the adoption of a standard box wagon, containing 168 cubic feet, thus allowing 40 feet for loss in placing in the receptacle.

## PREPARE FOR OPENING OF NEW HIGH SCHOOL.

Board Provides for Purchase  
of Furnishings; School Gar-  
dens: Considered

Plans and proposals for new build-  
ings occupied considerable attention at  
the school-board meeting last evening,  
but owing to the limited amount of  
money in hand to carry the work to  
the end of the year, a number of econ-  
omies were approved.

Among them was a decision that no  
new school sites should be purchased  
till the loan accounts are adjusted.  
For the same reason it was resolved  
not to pay the vote of \$200 to the St.  
John Ambulance Association as yet.  
Dr. Donald said that in consequence  
the teachers who were waiting for the  
second year's course would have either  
to pay for ordinary classes or wait till  
other times.

Inspector Paul believed that some  
arrangement could be made in connec-  
tion with the proposed evening classes.  
The board authorized the format  
transfer from the contractors of the  
Burnside and Oaklands schools, sub-  
ject to an undertaking that the minor  
mural defects reported should be ad-  
justed after the walls dried out.

Plans of the new manual training  
departments for Quadra street and  
Hollywood schools, as prepared by the  
superintendent of works, were present-  
ed and approved. Tenders are to be in  
by October 20.

As the board hopes to occupy the  
High school in January, the trustees  
decided to take the purchase of the  
necessary furniture in hand at once  
and also to order the laboratory ap-  
paratus. The city council is to be asked  
to widen out Grant street, upon  
which the school fronts, to 66 feet and  
also to provide sidewalk accommoda-  
tion.

The Stone Cutters' Union drew at-  
tention to the specifications for the  
Hollywood school, which provided for  
a brick and terra cotta building, and  
terra cotta was, the communication  
pointed out, available only in the  
United States. The letter observed  
that the stone industry in British Co-  
lumbia had suffered a considerable set-  
back through the constant use of terra  
cotta. The government had set a pre-  
cedent in having the plans of the  
Normal school and provincial jail  
modified to introduce stone.

The subject will be dealt with by  
calling for alternative tenders, includ-  
ing stone as a material.

Arrangements are under way for the  
education of children in the Protestant  
Orphanage home through co-operation  
with the committee.

Dart and Francis, submitted a  
scheme for bidding for schools on the  
unit basis. Materials would be esti-  
mated in quantities, and figured upon  
by the contractors on a unit basis  
from the architect's figures rather  
than those of the contractors them-  
selves. The building and grounds com-  
mittee reported unfavorably to the  
proposal.

Trustee Hayward believed the pre-  
sent occasion would be a good one for  
a test to be made. He felt that no  
harm would come from a trial.

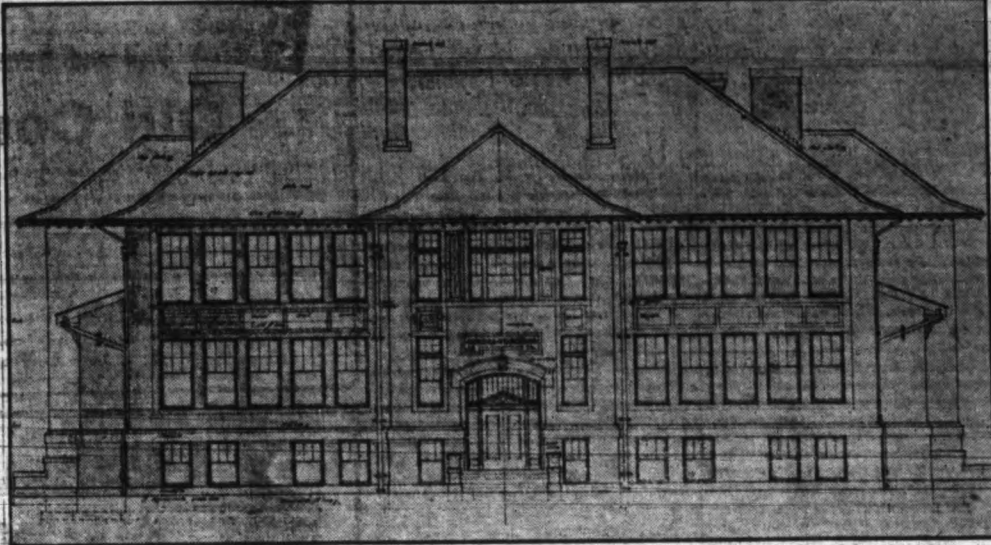

The board adopted the committee's  
report. Mr. Hayward voting in the  
negative.

Miss Pennington was appointed to  
the teaching staff and Mr. Anstey con-  
firmed as a manual training instructor.

A committee consisting of Chairman  
George Jay and Trustees Mrs. Jenkins,  
Riddell was appointed to confer with  
H. B. McLean, principal of the George  
Jay school, on the question of school  
gardens.

Mr. McLean, who is an enthusiast  
for this work, explained methods by  
which the small efforts so far com-  
menced could be extended, and sug-  
gested in order to save this year's  
cuttings that a plant house should be  
secured, the building of which with  
heating, would cost about \$625. He  
suggested that in future the board  
should endeavor to interest the children  
in the work by demonstrations in the

## IN RAPIDLY DEVELOPING DISTRICT

Facade of the new Quadra Street school, to be located at the corner of North Quadra street and Finlayson street, for which tenders close on October 31. It will consist of eight rooms, and cost about \$50,000. C. Elwood Watkins is the architect. A manual training building will be constructed at once on the site, under separate contract.

proposed planhouse. He believed the  
scheme could be made self-sustaining  
in a few years.

Captain McIntosh and Dr. Donald  
endorsed the proposal.

The board decided not to adopt oil  
fuel in the Burnside and Oaklands  
schools heating plants, but to call for  
separate tenders alternatively for coal  
and for liquid fuel in connection with  
the two new schools.

On Dr. Donald's suggestion it was  
decided to notify the British Columbia  
Telephone Company and the British  
Columbia Electric railway that the  
board would hold the companies re-  
sponsible if illness resulted at the  
Oaklands school, as no electric power  
is available, and the children are cold.

### TO BEGIN IN TEN DAYS

Evening Classes Will Commence  
About October 21; Arrangements  
Are Completed.

The prospectus of the evening con-  
tinuation schools was presented to the  
school board last evening by Inspec-  
tor Paul and approved. The Inspec-  
tor indicated that a commencement  
would be made the week after next,  
about October 20. Arrangements have  
yet to be made as to the teachers to  
be employed.

The session will last to March 31,  
and be open to persons over 14 years  
of age. Registration forms are now  
being prepared and will be ready at  
most at once. Classes will be con-  
ducted on each day of the week from  
Monday to Friday inclusive between  
7.30 and 9.30 p. m. at the George Jay,  
North Ward and Girls' Central  
schools.

The subjects in which instruction  
will be given are: English (elemen-  
tary and advanced), elocution, arith-  
metic (commercial and workshop),  
mathematics (elementary and ad-  
vanced), manual training course for  
those who wish to work at the build-  
ing trades, special course for students  
working for the civil service examina-  
tions, sheet metal working, instruc-  
tions in gasoline engines, school of  
design (decorative trade classes),  
cooking, dressmaking, physical exer-  
cises for girls.

### TOURING FRUIT DISTRICTS.

Dr. Hewitt, Dominion Entomologist, is  
in Victoria; Carrying Out Pest  
Investigations.

After touring the great fruit dis-  
tricts of British Columbia, Dr. D. C.  
Gordon Hewitt, Dominion entomolo-  
gist, arrived in Victoria yesterday in  
pursuit of the policy of co-operation  
that has been adopted in agricultural

and horticultural work between the  
Dominion and provincial governments.  
Explaining the particular purposes  
of his coming to the Coast, Dr.  
Hewitt said: "I have come to the  
Coast to carry out certain investiga-  
tions respecting fruit and timber pests,  
and the results of these, together with  
the results of all the joint work that  
is now being carried on here, will be  
available for the provincial government."

Speaking on the subject of pests  
Dr. Hewitt said:

"Your principal pests appear to be  
the budmoth and the lesser apple in-  
sect. They are quite prolific and pow-  
erful nuisances. We have them under  
investigation now, and by next  
year we hope to be able to do some-  
thing to eradicate them."

Dr. Hewitt is accompanied by T.  
Wilson, inspector of Indian Reserves,  
and will make an extensive tour of  
the island, after which he will visit  
Castroville and Washington in order to  
study the pest problems in those  
states, which, it is said, are very sim-  
ilar to those in the fruit-growing  
provinces of Canada.

## "CASCARETS" RELIEVE SICK, SOUR STOMACH

Move acids, gases and clogged  
waste from liver and  
bowels

Get a 10-cent box now.

That awful sourness, belching of  
acid and foul gases; that pain in the  
pit of the stomach, the heartburn, ner-  
vousness, nausea, bloating after eat-  
ing, dizziness and sick headache,  
means a disordered stomach, which  
cannot be regulated until you remove  
the cause. If isn't your stomach's  
fault. Your stomach is as good as  
any.

Try Cascarets; they immediately  
cleanse the stomach, remove the sour,  
undigested and fermenting food and  
foul gases; take the excess bile from  
the liver and carry off the constipated  
waste matter and poison from the  
bowels. Then your stomach trouble is  
cured. A Cascaret to-night will  
straighten you out by morning—a 10-  
cent box from any drug store will  
keep your stomach sweet, liver and  
bowels regular for months. Don't for-  
get the children—their little insides  
need a good, gentle cleansing, too.

## YOUNG MAN'S EXCITING EXPERIENCE WITH BEARS

Single Handed, With Aid of  
Dog, He Killed Mother Bear  
and Cub With Spruce Stick

Roy Horie, in charge of a govern-  
ment survey party working on Banks,  
Prescott and Porcher Islands, had an  
experience about a week ago which he  
will likely remember for many a day,  
and which will serve as the material  
for a good story to relate to his little  
ones by the fireside when they are  
anxious for a real bear story, says the  
Prince Rupert News. While cruising  
some land at Kamelian Inlet, about  
forty miles south of Prince Rupert, he  
espied two black bears on the mountain  
side about fifty yards away. With a  
small pistol he fired two shots, wound-  
ing both of them. The wounds, how-  
ever, were sufficient only to arouse the  
anger of the beasts and they at once  
made for him. With only one shell left  
he fired at the larger bear but missed.

He then grabbed a spruce limb as his  
only defence, the bears still advancing.  
His faithful dog joined him in the  
battle and kept worrying the big bear  
from behind. Each time the bear  
turned at the dog Mr. Horie inflicted  
telling blows on the bear's head with  
an occasional blow at the smaller one.  
Finally he rendered the big one a  
stunning blow and then ended its ex-  
istence with a knife. With this one  
small pistol he fired two shots, wound-  
ing both of them. The large of the two, a  
she-bear, weighed nearly four hundred  
pounds and the cub about a hundred.  
Several times during the encounter,  
which took place in a hollow beside a  
large fallen tree, Mr. Horie longed for  
the haunts of civilization, but now that  
the excitement has worn away he is  
justly proud of his victory in the  
thrilling episode.

Mr. Horie reports that wolves are  
particularly numerous on Banks island.  
An Indian told him he had seen one  
pack of over forty. The Indian dogs  
are running wild with them.

### HAVE \$693 ON HAND

Balance Sheet of Ladies' Guild of  
Seamen's Institute Shows Affairs  
in Good Condition.

The following is the balance sheet  
of the Ladies' Guild of the Seamen's  
Institute, for the year 1912-13:

Income.	
Members' annual subscriptions	\$ 135.00
Balance from former guild ac-	count
Proceeds of bridge party	7.00
Donation (Mrs. Pethick)	88.00

committee	8.50
Wreaths (8)	1.75
Secretary and treasurer's ex-	penses
Furnishing Seamen's Insti-	tute
In bank	\$693.00
	\$1,102.00

The accounts were audited and  
found correct by F. H. Kidd, char-  
tered accountant.

Bananas have been sold at Corcoran  
Garden Market, London, recently, at  
seven a penny.

## LETTER BOX

Letters for publication in Daily Times  
must be received at the Times office not  
later than the day before the day of pub-  
lication. When received later they will  
be held over until the following day.

### SUNDAY LABOR.

To the Editor:—Mayor Morley and  
others are extremely anxious that the  
Attorney-General should give his con-  
sent to prosecute some Italian shoe-  
shiners and Greek fruit-sellers and  
others for violating the Sunday Observ-  
ance Act.

Perhaps Mayor Morley will tell the  
people why he as chief magistrate  
should not be prosecuted for having  
Italians and others working on Sun-  
day on the Sooke lake waterworks,  
more particularly when men who do  
not desire to work on Sunday are told  
that they can either do so or pack their  
blankets.

Has he weighed the question and  
found that those Italians on the Sooke  
lake job have no vote, and is that also  
the reason that he allows all the rules  
of the Camp Act to be violated after  
having been made aware of the condi-  
tions some four weeks ago.

Has Mr. Dowler again been late and  
forgotten to hand in recent communica-  
tions to his worship or is the mayor  
playing politics? ENQUIRER.

Victoria, B. C., Oct. 8, 1913.

### PARKER WILLIAMS HAS SOME- THING TO SAY.

To the Editor:—The Nanaimo  
Herald reprints a communication  
which appeared in a recent issue of the  
Colonist over the signature of E.  
Jacobs. As the communication is de-  
signed solely for the purpose of direct-  
ing attention away from the indefen-  
sible part played by the British Co-  
lumbia government in the island coal  
mine trouble, it is well to ask if the  
Colonist correspondent is the same E.  
Jacobs who figures quite largely in the  
British Columbia public accounts dur-  
ing recent years? The latter Mr.  
Jacobs is either a very simple-minded  
gentleman or he is prepared to lend  
himself to work that upright men  
avoid, for if my memory is not very  
faulty he told the B. C. public that the  
reduction in the death rate in the B. C.  
mines during 1911 was a tribute to the  
premier's wisdom in selecting Mr.  
Graham as chief inspector, whereas  
the fact was that Mr. Graham was  
not appointed until the tenth or  
eleventh month of the year, and any  
reduction in the death rate was due to  
a strike for eight months of the  
year.

Believing that the Colonist  
correspondent is the same gentleman  
who tortured such circumstances as  
this to extract an eulogy of Sir  
Richard McBride, then holds out his  
hand for payment from the provincial  
treasury. I feel that it is not necessary  
to deal with Mr. Jacobs in the spirit  
that we should deal with any person  
honestly seeking information or hon-  
estly expressing his own ideas.

Mr. Jacobs complains because some-  
one applies the logic of Sir Richard  
McBride's actions to his words as  
quoted by the London Standard. If  
the gentleman will bear in mind that  
last year while Sir Richard seized  
every opportunity for a wordy asser-  
tion of his determination to keep this  
province a "white man's country," over  
\$3,000 additional Asiatics came in, and  
further, his refusal at any time to  
enact legislation that would hamper,  
discourage, or even indicate any ob-  
jection to these people—in view of all  
this, shall we cavil if any person place  
his own interpretation on the premier's  
words? Actions are said to speak  
louder than words, regardless of what  
the exigencies of Tory politics may  
require.

Misleading statements published re-  
garding the strike situation is the ex-  
cuse which Mr. Jacobs offers for his  
communication, yet though utilizing  
over a column of space, he apparently  
knows of no misstatements circulated  
to injure the miners' cause. What of  
that 24,000 rounds of ammunition  
found in basement of union hall in  
Ladysmith? What of the old mine  
under the Athletic hall in Nanaimo?  
Just where is the "big hill" south of  
Nanaimo where the train wreck was  
attempted on September 27, and who  
discovered it? What disposal was  
made of the car and a half of rifles  
discovered by the militia? I would sur-  
gest that Mr. Jacobs' inquiry into the  
truth or otherwise of these and a hun-  
dred other stories circulated to pre-  
judice every judge and jury throughout  
the province against the miners await-  
ing trial. If Mr. Jacobs can assay up  
man enough for this task and tell the  
public the conclusions to which his in-  
quiries lead, I will undertake to show  
that the Coal Mines' Regulation Act  
contains the machinery for excluding  
the Asiatics from the mines at any  
time that a minister of mines may be  
found desirous of so doing.

The breach of the law of which the  
miners complain most is the manner  
in which special police were supplied  
to drive the Asiatics back to work (they  
having been on strike with the white  
miners); the use of police to escort  
through to Cumberland the hordes of  
now Asiatic combed up from the  
hovels and blind alleys of the coast  
cities, and the throttling of the ex-  
amining board which stood in the way  
of their employment.

Mr. Jacobs asks for figures as to  
the number of Asiatics employed at  
Comberland. I am sorry that we can-  
not oblige. Japtown and Chinatown  
are fenced and guarded by police more  
sacredly than a New Brunswick black  
farm. Some of the mines are in the  
centre of "company towns," no public  
road being permitted within half a  
mile; and although hundreds of per-  
sons may approach them without a permit  
from the company, and such is the  
warm feeling between the colliery com-  
pany and the government, that the  
latter supplies and pays from the pub-  
lic treasury police to see that this rule  
of the Canadian Collieries Company is  
not violated.

Towards the close of his communica-

tion Mr. Jacobs indicates that he in-  
quired from the colliery company's  
office as to the output of coal during  
the current year. Now if Mr. Jacobs  
was as anxious to learn the number of  
Asiatics employed as he was the out-  
put of coal, he would have made in-  
quiries at the same time. He does not  
do so. Too well the gentleman knows  
that the special interests for which he  
is pleading would not be served by  
exhibiting the Canadian Collieries Com-  
pany's Asiatic payroll, and he hopes  
that the precautions taken by Hon.  
W. J. Bowser's department will have  
prevented any one else being able to do  
so. That the number is immensely in-  
creased we have ample evidence to  
prove.

As to the miners' demand for an in-  
vestigation, Mr. Jacobs says: "No  
specific charge has yet been made to  
the department of mines of any breach  
of the law." In reply I would say that  
the greedy manner in which the pro-  
vincial government has seized every  
pretext for harracking its ex-politici-  
ans, its "near" politicians and its  
would-be politicians on to the provin-  
cial treasury, would indicate that no  
very "specific" excuse was necessary.

The miners' statement in effect was:  
"We believe that one of our number is  
being punished for reporting unsafe  
conditions while acting on the gas com-  
mittee. We have asked the mine  
officials for an explanation, but they  
slam the door in our faces. Until it  
be proved that our fears are ground-  
less no other man can afford to act on  
the said committee." The grave yard  
reaps its crop from among us too fre-  
quently to allow us to relinquish any  
right that makes for safety. We there-  
fore ask your department, which is  
charged with the responsibility for the  
safety of mines, to make such investi-  
gation as will disclose the truth or  
otherwise of our fears." Sir Richard  
McBride refused. And in this our pro-  
position, for no instance of such  
callous indifference can be found  
from the inception of state responsi-  
bility for the safety of the mines down  
to the present day. From the date of  
the premier's refusal down to Hon. W.  
J. Bowser's last raw act, the govern-  
ment has acted as if it were the func-  
tion of government to break the strike.

"The government," Mr. Jacobs says,  
"refused to be made a cat's paw of to  
settle an industrial dispute." Is the  
question of mine safety an industrial  
dispute? And if it were, is there any-  
thing dishonorable in attempting a  
settlement? I would suggest that it  
were fully as honorable as hiking the  
financial securities of the Canadian  
Northern railway from one financier  
broker to another in search of  
some one to lend money thereon.  
I would also point out that very recent-  
ly a large number of otherwise reput-  
able citizens of Victoria actually  
formed an association for one other  
purpose than to settle industrial dis-  
putes.

Apparently our code of social eth-  
ics has to be amended to fit the conduct  
of Sir Richard McBride.

## RUGBY SCHEDULE DRAWN UP

### INTERMEDIATE CLUB'S ORGANIZE

Five Clubs Enter for Barnard Cup Series; Season Opens on Oct. 18 at Oak Bay

Victoria's Rugby schedule for the season of 1913 was drawn up at a meeting of the Victoria Rugby Union, the Barnard Cup games, McKeechle series and New Zealand games being included in the list that was approved by the local union. The Barnard Cup series includes five clubs, Wanderers, Fifth Regiment, James Bay A. A., Law Students and Victoria Welsh, while the McKeechle cup games and also those with the New Zealanders will be representative teams.

Use Willows Grounds.

The first match will be staged on October 18, when the Wanderers and Fifth Regiment will meet on the Oak Bay grounds. There is a chance that the union will secure permission from the B. C. Agricultural Association to use the Willows field this year for some of their games, and efforts are now being made to have two league grounds for each Saturday.

The intermediate Rugby league has been organized with the following teams entered: J. R. A. A., Wanderers, University School, High School, Fifth Regiment, Law Students, A. O. Smith has been elected president of the league and E. Finland secretary.

Now that the Barnard league schedule is out, the intermediates will be drafted in the next few days.

Play at Vancouver.

The Vancouver Rugby Union has decided, according to an exchange, to make the New Zealanders a \$300 guar-

antee for one game in Vancouver, on November 25, the day previous to the tourists' departure for home.

The Wanderers will play James Bay a practice game at Oak Bay, on Saturday afternoon next, starting at 2:30. The Wanderers team: Back, Spencer; three-quarters, Gillespie, Major Bennett, Judd; halves, D. M. Grant and Yates; forwards, Chalk, Baum, Collinson, Belfon, Clouston, Denniston, Willis, Colomine.

The James Bay club has invited the Rowing Club of Vancouver to come over for the annual Thanksgiving Day match here, but no answer has yet been received.

The complete Rugby schedule is as follows:

October 18—Wanderers vs. Fifth Regiment.

October 20—Welsh vs. Law Students.

October 25—Law Students vs. J. R. A. A. Wanderers vs. Students.

November 1—Fifth Regiment vs. J. R. A. A. Wanderers vs. Students.

November 3—Trial game.

November 15—McKeechle cup match, Victoria at Vancouver.

November 19—Victoria vs. New Zealanders.

November 22—Victoria vs. New Zealanders.

November 29—McKeechle cup match, Nanaimo vs. Victoria.

December 6—Welsh vs. Fifth Regiment.

December 13—J. R. A. A. vs. Wanderers.

December 20—Law Students vs. Fifth Regiment.

December 27—Welsh vs. J. R. A. A.

The next meeting of the league will be held on Monday, October 13, at the Balmoral hotel.

## BELLE OF IROQUOIS

### DESTROYED AT TRACK

Cut Down in Fifth Race; Mud and Rain Again Ruled

Splashing their way through the mud and rain, no less than seven favorites finished in front at the Willows yesterday afternoon, the sole exception being Florence Kripp, in the eighth race on the card, who beat out Eddie Mott, the public choice and paid off at the rate of four to one.

Belle of Iroquois, one of the best known racing mares in the north-west, was cut down in the first lap of the fifth race and had to be destroyed. This mare has won a lot of races in Vancouver and on other coast tracks, and had shown good form at the local meet, being placed third in her last two starts. Jockey Forsyth was thrown to the track, but was not injured, and the mare was taken to the stables, where three bullets were necessary to put an end to her suffering. As the race was over, the referee, J. Hallas, said:

## WORLD'S SERIES

EDDIE PLANK

Philadelphia's veteran south paw, the loser in yesterday's game, after nine long scoreless innings during which he twirled wonderful ball.

ing has been conducted under most adverse conditions for three days, the Country Club considers itself very lucky that there have not been more accidents of a like nature. The Belle of Iroquois was valued at \$300, so that the owners, Messrs. Jeannette & Riley, will be heavy losers.

O'Brien Has Three Winners.

Jockey O'Brien again showed that he is the best knight of the platoon riding in the capital by piloting three winners past the wire, with two seconds in addition. He was unplaced in two of the events, but rode in splendid style throughout. He was the only rider to get more than one win, Claver, Pickens, McBride, Cavanaugh and Riddle being the other winners. There were few surprises, as the morning was looked upon as a sure thing for the last race. Voladay Junior ran a remarkable race in the Empress handicap, winning by two lengths after being left absolutely last at the post. McBride had the mount on this favorite, and he started to use the gaff as soon as the barrier was sprung, catching him just as they swung into the stretch, to win easily. Va-Va equaled the Fraser course record by covering the short five furlongs in the fastest time of the day.

Leave on Saturday.

Quite a number of the horsemen now quartered at the track are making preparations to move their entire stables to the Junex track, and on Saturday there will be a general exodus of horsemen from the capital. The racing dates for which the western horsemen are headed are as follows: Jockey Club Junex, Junex, Mex., November 27, 1913, to March 4, 1914, or later (100 or more days).

Charleston Fair and Racing Association, Charleston, S. C., December 1, 1913, to February 28, 1914 (78 days).

Toronto, Oct. 9.—The indictment charging W. P. Fraser, secretary of the Ontario Jockey Club, with conducting a lottery in the operation of pari-mutuels at the Woodbine, was withdrawn from the jury in the sessions, and a verdict of not guilty was entered, without any defence being heard.

WANTS TO INSURE.

CITY SOCCER STARS

There is a proposition on foot to insure the city football clubs and a local insurance agent has interviewed President Lockley, of the Victoria and District Football Association, with this object. The league will not likely do anything in the matter, but it is expected that a number of the teams will take advantage of the offer to insure the soccer club in a body.

Secretary Jack Fletcher announces the following team to represent the Sons of England Saturday against the Rangers at the Royal Athletic Park, Mundy, Hyman, Beech, M. R. Bland, Marshall, Douglas, A. Kerley, Wells, Sharrock, F. F. Kerley (capt.).

At San Francisco—Oakland, 7; Los Angeles, 2.

At Los Angeles—Venice, 3; Portland, 2.

At Sacramento—San Francisco, 3; Sacramento, 6.

Phoenix Beer, \$1.50 per doz. qts.

## TERMINALS ACCEPT VICTORIA OFFER

Vancouver All-Stars to Play Here on Thanksgiving Day; Referees for Saturday

Vancouver's All-Stars will play Victoria's hand picked soccer eleven on Thanksgiving Day, according to information received in the city. The Victoria and District Football Association has received no official letter to this effect, but the game will undoubtedly be staged.

Victoria's challenge was for a home and home series, the first game to be played here Thanksgiving Day, October 23, and the second in Vancouver probably on Christmas Day. Messrs. Benson, Russell, Barrett, Cairns and Godfrey have been appointed as a committee to select the Vancouver team.

At last night's meeting of the Victoria District Soccer Association entries for the junior league series were received from the North Wards, Victoria Wests and Y. M. C. A.

Wyllie applied for his transfer from the Sons of England to the Rangers, but this matter was laid over for one week.

The referees and grounds for Saturday's games were assigned as follows:

First Division.

J. R. A. A. vs. Thistles, Oak Bay, Referee, A. T. Goward. V. W. A. A. vs. N. W. A. A., Beacon Hill, Referee, J. R. Allen. S. O. E. vs. Rangers, Royal Athletic Park, Referee, J. Hallas.

Second Division.

Men's Own vs. Wests, Beacon Hill, Referee, D. Thompson. N. W. A. A. vs. Navy, North Ward Park, Referee, J. Malbon. Pandora vs. Empress, Macdonald's field, Referee, V. Stott.

Southern League Standing.

Goals.	W.	L.	D.	P.	A.	Pts.
Swindon Town	8	1	3	16	12	12
Crystal Palace	8	1	3	9	4	9
Southampton	4	2	1	11	5	9
Reading	4	2	1	10	8	8
Oillingham	4	2	1	10	8	8
Coventry City	2	2	4	9	14	8
Northampton	2	1	3	9	8	7
Plymouth Argyle	3	2	1	9	10	7
Watford	2	4	2	11	8	6
Exeter City	2	3	3	10	11	6
West Ham United	2	3	3	10	11	6
Norwich City	1	2	4	10	11	6
Southern United	1	2	4	10	11	6
Brighton & Hove A.	1	2	4	10	11	6
Millwall Athletic	1	4	5	7	9	4
Queens Park R.	1	3	2	6	10	4
Merthyr Town	1	4	1	5	9	3
Bristol Rovers	1	4	1	5	9	3
Cardiff City	1	5	1	5	10	1

Men's Own Team.

The Men's Own Bible Class will be represented by the following players in their match against the Wests at Beacon Hill on Saturday: Lock, Wiseman, Clinch, Daniels, Norman, Church, Weight, Ferris, Armstrong, R. Lea, Reserves, E. Cull and A. Lee.

Thistles Meeting.

A meeting of the Thistles will be held on Thursday evening in the St. Andrew's club room, corner of Yates and Government streets. A full attendance is requested.

CONLEY LOSES.

Denver, Col., Oct. 9.—Johnny Chavez, of Trinidad, won a decision here over Frankie Conley, of Kenosha, Wis. They are bantams.

KILBANE A WINNER.

New York, Oct. 9.—Johnny Kilbane, of Cleveland, the featherweight champion, out fought Kid Julian, of Syracuse, throughout their ten rounds here last night.

WORLD'S SERIES

DOC RANDALL

New York's relief hurler, who was batted from the box by the Athletics on Tuesday after he had taken Marquard's place on the slab.

GOLF STARS TO PLAY OVER LOCAL COURSE

Victoria golfers are now assured of the opportunity of witnessing Harry Vardon and Edward Ray, the famous English golfers in action. At a meeting of the Victoria Golf Club, held last night, it was decided to offer the noted pair \$300 each for a day's exhibition. They will play at Seattle on October 23 and will be able to play in the Capital on the following day.

Seventy-five women golfers, including Miss Muriel Dodd, of Morton, England, the British and Canadian champion; Miss Gladys Ravenscroft, last year's British champion; Miss Mabel Harrison, of Ireland, who holds the Irish title; Miss Margaret Curtis, of America; and many other notable players start Monday in the women's tourney of the U. S. Golf Association.

## MACK'S TWIRLERS UP AGAINST IT

McGraw Should Be Able to Win a Couple of Games According to Local Fans

"Unless Mack's young pitchers come through, McGraw has the Athletics where he wants them," was the statement of a prominent baseball fan to the Times this morning, and looking the situation over it appears as if the statement is right. All along the baseball critics have shown that Mack is weak in the box, and with the Giants putting Eddie Plank away in an extra inning battle, the outlook is very favorable for the Giants. The latter have Demaree and Tarsen in addition to Fromme and Crandall for duty on the slab, and McGraw certainly has an edge on the series. The Giants have been hitting the ball regularly, while their fielding is every bit as sensational and as steady as that of the American League champions. Yesterday's 3 to 0 victory for the Giants, coupled with Mathewson's mastery work, brought out the reserve strength of the New York Club. The Athletics appear to be getting all the luck, as they have their lineup intact, while McGraw is minus three of his regulars, Meyers, Snodgrass and Merkle.

Many best were registered in the capital yesterday that the Giants would win the series. The victory of the Athletics on the opening day dampened the ardor of the Giant

supporters, but there was plenty of even money in sight yesterday.

A funny thing about Plank's downfall yesterday is that the Giants did the same thing to the Gettysburg southpaw way back in 1905, when he was right in his prime. Mack did not use Plank in 1910 as he had Bender and Combs to do the work, but with the latter laid up this fall, he has been forced to use the port sider. The latter is nearly forty years of age, and is scarcely able to last nine innings against such a voracious crew.

New York, Oct. 9.—A middle-aged man who had been leading the cheering in front of a Park Row bulletin board yesterday, dropped dead of heart disease as the news was flashed that Mathewson had made a hit in the tenth inning. The victim of over-excitement carried a Bowery mission membership card in his pocket.

Pinky Griddle, the Vancouver Ball Club's backstop, who is now living in the capital, is sporting a handsome gold watch fob, a present from manager Bob Brown of the Beavers as a souvenir of the Northwestern championship of 1912. The pattern of the cross bars with the suspended baseball was made after that of the Oakland fob of 1912. Bert Demas, Victoria's captain, is carrying one of the latter, and Bob Brown followed out this design.

SPORTING GOSSIP OF THE DAY

Mathewson still has a little on Plank in the pitching line.

Eddie Collins was twice humbled on strikes, while Baker succumbed once.

The Athletics will now have to use Shawkey, with a couple of other youngsters to help him out.

Pirates also won yesterday, the National League taking two out of the three Inter-League games.

Belle of Iroquois, who had been shot yesterday afternoon, was one of the best fabled animals on the track.

Eddie Wettlaufer, the O. H. A. president, says that amateur hockey is growing by leaps and bounds in the East.

Cornwall and Montreal are still tangled up over the N. L. U. championship, with the pro. question a big factor in the dispute.

Quimet gives his caddy full credit for his recent golf victory, he encouraged him during the big match.

Wards are out to win Saturday's soccer feature at Beacon Hill and a bumper crowd is looked for.

Charlie Brooks, the Victoria first

## ATHLETICS TAKE THE THIRD GAME

sent a long foul into the upper right field stand, the ball falling into fair territory. Oldring scored on Collins' three-base hit along the right field line.

The ball took a wicked bound past Murray, enabling Collins to make third base. Collins scored on Baker's single to centre. The Athletics' hitting was too much for Tesreau, and he was called from the pitching box.

Crandall went in the box for New York. McInnis out when Doyle took his liner for a double play, unassisted. Two runs, three hits, no errors.

Seventh Inning—New York.

Schafer doubled to left. Schafer scored on Murray's single to left. Wilson fanned and Schang threw out Murray at second. Collins taking the throw and completing the double play. Merkle walked. Witte ran for Merkle. Collins threw out Crandall at first. One run, two hits, no errors.

Eighth Inning—Philadelphia.

Witte on first for New York. Crandall threw out Strunk. Crandall threw out Barry. Schang scored on a home run into the right field stand.

Baker came out and shook Schang's hand after he crossed the plate. "You belong to the home-run club," said he. Bush struck out. One run, one hit, no errors.

Ninth Inning—New York.

Murphy out on a fly to Murray. Oldring out on a foul to Herzog. Collins out on a fly to Schafer. No runs, no hits, no errors.

Tenth Inning—New York.

Burns out on a fly to Murphy. Schafer walked. Schafer forced at second when Barry took Murray's roll and tossed to Collins. Wilson fouled to Baker. No runs, no hits, no errors.

The score:

Cautious Cuthbert (awaiting opportunity for distinction): "H'm, just my luck—not one of 'em even ventured out of his depth all the afternoon."

procession of King Edward was passing the house. A curious fact is recalled by this conviction. When Mr. Kemp searched Chapman's rooms he found a number of banknotes which just previously the man had charged a friend with stealing and had actually got him convicted. Of course, the result of the find was that the innocent prisoner was immediately released.

Promoted to the rank of inspector, Mr. Kemp did good work at the "Yard." One of his duties was the guarding of the famous Cullinan diamond when in transit from the Bank of England to the late King, and its subsequent safe care at Scotland Yard until the bank reopened.

He served under no fewer than five commissioners, and has received over a hundred commendations and rewards from judges, commissioners, magistrates, and the director of the prosecutions.

He was the terror of pickpockets at the principal race meetings throughout England.

He intends to devote his energies and experience to private inquiry work.

Vancover, B. C., July 15, 1913.

The Electro-Vigor Co.

Gentlemen—I have used your strong power Electro-Vigor for a little over two months, and can certainly say that it has been of great benefit to me. My general health is greatly improved and the various troubles for which I purchased the appliance have almost disappeared. I will always be ready to recommend the appliance to anyone who wants to know about it, as I am thankful for what it has done for me.

Yours very truly,

153 Lorne Street.

F. B. HIGHAM.

Drugs don't restore strength; they don't feed the nerves which are weak; they excite them, but that does not help them, as the excitement must pass off, leaving them weaker than ever.

We can take a man who is thin, puny and unenriched in appearance and pour this electric life into his body every night for a few weeks, with the proper exercise to draw it into the muscles and tissues and add 25 lbs. to his weight, double his power and vitality and transform him into a giant of strength, as is often done. Look at the men who have used Electro-Vigor and you will see men of force, men who respect themselves and are respected and admired by their fellowmen.

Electro-Vigor is an electric body battery, applied while you sleep. It saturates every nerve and tissue with glowing, invigorating electricity. It builds up vitality and strength and removes the cause of pain and disease.

GET THIS FREE

If you can't call out out this coupon and mail it to us. It will bring you, prepaid, our 100-page book describing this treatment, and with illustrations of fully developed men and women, showing how Electro-Vigor is applied. It tells how you can be strong, healthy and happy. Don't wait a minute; cut out this coupon now.

FREE TEST—Any person who calls at our office may test Electro-Vigor free. No charge for consultation.

## WORSE LUCK!

McGraw's Clan There in the Pinch.

Despite the fact that his regular first-baseman, his star backstop and center-fielder were on the bench nursing injuries, Muggsy McGraw and his Giants showed the calibre they are made of when they made the Athletics go into overtime yesterday, shutting out Mack's hard-hitting crew and evening up the series. There is scarcely another team in the country that could perform such a trick, McGraw using Witte, a pitcher, on first, while Schafer, an infielder, was in centre field, McLean and Wilson doing the backstopping. Perhaps the greatest share of the honor belongs to the backstopping, a beautiful game, getting out of two bad hits. The Athletics can scarcely count upon Plank for another game this week, and this gives McGraw the edge. The series now rests with the Giant pitchers, for the National League champions are hitting and fielding equally with the Mack men.

Ray and Vardon Get Another Chance.

Ever since Francois Quimet, the Brookline youth, defeated Harry Vardon and Edward Ray, there has been no end of talk in the American papers over the success of Uncle Sam at golf. Our southern cousins appear to forget that Quimet's feat was a marvelous victory for the youth, Vardon and Ray trimmed the pick of the United States veterans and were playing against a youth who knew every inch of the ground. Quimet would be a 100 to 1 shot in a match with either of this pair over any of the English golf courses, and it will be interesting to compare the return match which Ray and Vardon will play next month with Quimet and Francois. This contest will not be played over the Brookline links, so that Quimet will be seen on a neutral course. Victorians will have a chance shortly to witness the famous English golfers in action and they are sure of a warm welcome in the capital.

## THREE WOMEN TESTIFY

To the Merit of Lydia E. Pinkham's Vegetable Compound during Change of Life.

Streator, Ill. — "I shall always praise Lydia E. Pinkham's Vegetable Compound wherever I go. It has done me so much good at Change of Life, and it has also helped my daughter. It is one of the grandest medicines for women that can be bought. I shall try to induce others to try it." — Mrs. J. H. Campbell, 206 N. Second St., W. S., Streator, Illinois.

Philadelphia, Pa. — "It was at the 'Change of Life' that I turned to Lydia E. Pinkham's Vegetable Compound, using it as a tonic to build up my system, with beneficial results." — Mrs. S. H. Hayman, 1835 W. Venango St., (Tioga) Phila., Pa.

San Francisco, Cal. — "I have taken Lydia E. Pinkham's Vegetable Compound for many years whenever I would feel bad. I have gone through the Change of Life without any troubles and thank the Compound for it. I recommend it to young girls and to women of all ages." — Mrs. C. B. Barrie, 3052 25th St., San Francisco, Cal.

The success of Lydia E. Pinkham's Vegetable Compound, made from roots and herbs, is unparalleled.

If you want special advice write to Lydia E. Pinkham Medicine Co. (consultant) Lynn, Mass. Your letter will be opened, read and answered by a woman and held in strict confidence.

Henderson had his well-known, "Warwick Lily" at the New Westminster fair. He won prizes in nine out of eleven classes.

W. W. Harris is here from Seattle, a guest at the Strathcona hotel.

J. O. England is registered at the Strathcona hotel while here from Vancouver.

## SHY OF THE CAMERA

Helen Gould's photograph was once the most valuable in the country. She would not pose, and when she walked abroad she was accompanied by a highly capable woman whose duty it was to see that no one snapped her employer. One day the two ladies observed a shuffling man, dressed about a lamp post. But he did not seem dangerous, and so they walked toward him, laughing and talking. At twelve feet

MRS. FINLEY SHEPHERD

distance he quit shuffling and unlimbered a camera. The resultant photograph made its owner well-to-do.

Marriage seems to have worked a psychological change in Miss Gould, now Miss Finley Shepherd. She is now perfectly willing to pose when asked, provided that her husband pose with her. She will not face the lens alone. Mr. Shepherd thinks this is very funny, but he cannot coax her out of her position. None of the other Goulds are in the least camera-shy. Any one of them will stop anywhere and pose in any desired attitude. During the marriage of Helen Gould the camera men invaded the church and banged away regardless with their flashlights. Even the perfectly trained George J. finally resented this.

"Wait until after the ceremony, boys," he begged, "and we'll all pose, if you want us to. But for heaven's sake, let's get the girl married first."

## FAVERSHAM'S COSTUMES.

The costumes which William Faversham wears in the role of Marc Antony in his production of "Julius Caesar," at Victoria theatre, October 13, are said to be strikingly beautiful and to be subtly suggestive of the gradual transformation of this friend of Caesar from the Roman exile to the man of action. When Antony makes his first entrance in the train of Caesar in the opening scene he is arrayed in a white tunic. Over his shoulders is thrown a gorgeous wine-colored toga over a white under-robe. In the last scene on the plains of Philippi he wears a splendid suit of golden armor over which is thrown a robe of royal purple. This is probably the most striking costume Mr. Faversham has ever worn in all his long stage career.

Chin's Silks & Suits

Century of Verdi, Composer of "Aida"

For over a month all Italy has been celebrating the centenary of Giuseppe Verdi, one of the greatest of the world's composers, and a patriot whose music stirred to enthusiasm and action those who battled for the cause of Italian unity. To-day marks the actual centenary of the birth of the composer of "Aida," "Rigoletto," "Il Trovatore," "La Traviata," "Otello," "Falstaff," and other great operas. Over three score stars of grand opera, and every citizen of Italy from King down, have participated in the great festival in Verdi's honor.

Giuseppe Verdi was born on October 9, 1813, in the little town of Roncole, in the old duchy of Parma. The dukedom had been annexed by Napoleon in 1808, and made over into the French department of Taro, so that the composer, although born on Italian soil of Italian parents, was legally a Frenchman by birth. Roncole will be the Mecca to-day for pilgrims from all over Europe. The composer's father was the village innkeeper.

The Verdi centenary festival has centered at Parma, the capital of the old duchy, and the inaugural exercises were held in the Teatro Farnese, erected at the beginning of the sixteenth century. Verdi died in Milan in 1901, but the last twenty years of his life were spent principally at his Brussetto estate in Parma, not far from his birthplace. There he personally directed the farming operations, and delighted to call himself an "agricultore." He introduced modern agricultural machinery into Parma, and devoted his last years almost entirely to aiding the farmers. A Verdi monument, built by national subscription, has been erected in Parma. In the center is a statue of music, surrounded by twelve figures representing the heroes and heroines of Verdi's famous operas.

Verdi was not only the most illustrious of Italian composers, but he was the musical inspirer of Garibaldi and Mazzini, and the patriot army in their struggles for liberty and unity. "Viva Verdi" became the battle cry of the Italian revolutionaries. The earlier compositions of Verdi, with their hymns of love and death, of aspiration and revolt, were the musical prelude of that movement which resulted in the welding of Italy into one great power.

"Rigoletto," "Il Trovatore," and "La Traviata" rounded out the first period of Verdi's career, and they represented the best as well as the last of the old Italian opera school. Then came a revolution in Verdi's mind and method, which resulted in "Aida" and "Otello." "Aida" was written in 1869, and was first produced in 1871 in the new Italian theatre built in Cairo, Egypt, by the Khedive Ismail. An audience of many nationalities, European and Oriental, heard the opera, and unanimously pronounced it to be the composer's masterpiece.

"It is only the mediocre who affect indifference or contempt for whatever is not concerned with art and consider as vulgar all forms of practical activity," said Signor Nitti, Italian minister of agriculture, in his eulogy of the composer. "Like the divine Michael Angelo, the greatest and purest manifestation of Italian genius, Verdi understood all life and passed from the realms of art to those of agriculture, and did not disdain to take active part in the politics of his country."

Don't stay stuffed-up! Quit blowing and snuffling! A dose of "Pape's Cold Compound" taken every two hours until three doses are taken will end gripe misery and break up a severe cold either in the head, chest, body or limbs. It promptly opens clogged-up nostrils, expels air passages, stops nasty discharge or nose running; relieves sick headache, dizziness, feverishness, sore throat, sneezing, soreness and stiffness. "Pape's Cold Compound" is the quickest, surest relief known and costs only 25 cents at drug stores. It acts without assistance, tastes nice, and causes no inconvenience. Don't accept a substitute.

First Dose of Pape's Cold Compound Relieves All Gripe Misery

Smooth, Hairless Skin Follows This Treatment

(Toilet Tips.) Among the home-beauty helps, none perhaps is more important than that which will free the skin from obnoxious hairy growths. A simple method to rid the skin of unsightly hairs is to make a paste by mixing powdered delatone with water and applying for about 2 minutes, then rubbing off. With it comes every bit of hair and when the skin is washed, it will be firm and free from blemish. Results are more satisfactory if the delatone is bought in an original package.

## WEEKLY WEATHER SYNOPSIS.

Victoria Meteorological Office, October 1st to 7th, 1913.  
Victoria—Bright sunshine, 27 hours 42 minutes; highest temperature, 62.2 on 2nd; lowest, 35.9 on 5th; rain, .63 inch.  
Vancouver—Bright sunshine, 42 hours 36 minutes; highest temperature, 60 on 1st; lowest, 35 on 5th; rain, .33 inch.  
Kamloops—Highest temperature, 72 on 1st; lowest, 30 on 5th; rain, .12 inch.  
Barriere—Highest temperature, 56 on 1st; lowest, 18 on 6th; precipitation, .48 inch.  
Prince Rupert—Highest temperature, 56 on 1st; lowest, 35 on 4th, 5th and 7th; rain, .236 inches.  
Aldergrove—Highest temperature, 48 on 4th; lowest, 24 on 7th; precipitation, .20 inch.  
Dawson—Highest temperature, 54 on 1st, 2nd and 3rd; lowest, 30 on 3rd, 6th and 7th; precipitation, .19 inch.

It is proposed that the near future all milk will be delivered in red bottles, for it has just been discovered that, while ordinary light hastens the "spoiling" of milk, the red rays prevent it. The violet rays on the contrary, cause the milk to turn. Pure, fresh milk, or sterilized and Pasteurized milk, if placed in an uncolored glass bottle and left in the full sunlight, is completely spoiled by evening. But substitute a red glass bottle, or wrap the ordinary bottle in red paper, and milk is perfectly good after standing ten hours in the sun.

Mrs. Jordan, of Toronto, at Osgoode Hall, where she was preparing to examine her husband in her case for alimony. The case was adjourned because the husband was not ready to go on—had grown faint-hearted when he learned who the cross-examiner was to be.

Real interest in the home-making task means, as a natural consequence, real interest in the advertisements. And, oddly enough, real interest in solving housekeeping problems, wisely and well, is often aroused as a RESULT of an awakened interest in the ads.

## PRINCE OF WALES AT BERLIN

In the course of his late continental tour the Prince of Wales spent a night at Berlin as the guest of Emperor William, who showed him over the historical rooms of the castle. On the following day the Prince was the guest of the King of Wurtemberg.

## CHAT WITH CYRIL MAUDE.

Well-Known British Actor, No. 1 in Canada, Speaks of His Tour.

With a buttonhole of white heifer from Lochmarg, a diamond pin the gift of Royalty, and a smile that has been a valuable asset for years, Mr. Cyril Maude, interviewed, the other evening by a News representative, had all the appearance of one who has not the momentary grievance against the world, says the Glasgow News. He is taking a larger size in waistcoats than when last he was in Glasgow, but despite his success as a player he is not yet an out-size in hats. Mr. Maude is naturally elate over his recent visit to Balmoral, but that is now past history, and the purpose of our call was to obtain information regarding his prospective Canadian and American tour.

"We open our tour on 13th October," said Mr. Maude, "a date that might be supposed to augur bad luck, but, as it happens, thirteen is my lucky number, and I am going to chance it. Indeed, I am hoping that I may have a cabin number thirteen on the Virginian, and that the tour may last thirteen weeks, or any multiple of that number."

"It will be your first experience of the States?"

"Not exactly. As a matter of fact, I was there thirty years ago. I was then twenty-one, and a simple arithmetical proposition will give my age now. I practically began my career as an actor in the States, and have a vivid memory of days spent in Denver, Colorado. I played in 'Hail, Let', taking the part of second gravedigger and a sort of Rosencrantz-Guildenstern-First."

Player-and-Ghost rolled into one. It was a tableau 'Hamlet' presented on the canned principle, and labelled with bills that gave the town more than a foretaste of post impressionism. I suppose I ought to say, 'Ah! these were the days!' but I feel somehow that that is the sort of thing that has been said before. I could almost swear I've heard it somewhere, but perhaps I am wrong.

"You came to London in 'my' said days," said Mr. Maude, "with the stimulation of a sigh, and I started work gaily. Luckily I could always get enough to do to justify my enjoying a three-course dinner on Sunday at least, and I kept my seat in the merry-go-round with Fred Leslie at the Gaiety; in comedy at the Vaudeville; and among other engagements was fortunate in being invited to the Criticism under Sir Charles Wyndham's management. It was after that I struck out for myself, and produced 'Under the Red Robe', a dramatization of Stanley Weyman's novel. Then followed 'A Marriage of Convenience' and Sir J. M. Barrie's 'The Little Minister' in which my wife, Miss Winifred Emery, played Babbie. And, well, in seventeen years I have had my share of good plays, and so I cannot complain."

"There was 'Bunty,' we suggested. 'Ah! 'Bunty.' Yes, that was a success, eh? I could tell many pleasant little stories of that discovery, and some day I may, but not now."

"One must keep something for one's reminiscences. Is that it?"

"Reminiscences! Don't speak of reminiscences. I am a young man yet. Why, my daughter, who goes with me

to America to take care of me, had her hair in plaits yesterday and was at school a month ago—at least, that is how it seems to me. If ever I do write reminiscences I shall certainly mention that I was exalted in my profession in America and in my youth returned there. And if it falls to me to pen my own epitaph, it shall be 'The period of his adolescence was spread over a lifetime.' Good-bye!"

## NEW YORK'S MAYOR HAS BEEN LUCKY

Ardolph Loges Kline Holds His Present Job Because of Fortune's Smile

Ardolph Loges Kline is mayor of the city of New York because luck follows him like a dog. As the executive of the second greatest city in the world he may say the foundation of future greatness. And it is all luck—pure luck.

"We must have a German on the ticket for sheriff," said Tim Woodruff at a seeping conference of Republican leaders in Brooklyn in 1902. The hours over the identity of the German. Then William H. Maxwell walked out on the street to clear his aching head. At that lucky moment Kline walked by.

"Tag," said Maxwell. "You're it." He dragged Kline into the conference. Everyone shouted that he was the man for the place. Woodruff told him that he should have the nomination.

"What nomination?" asked Kline, puzzled.

He led his ticket by 5,000, but was beaten—that being one of the worst years in memory among the Republicans across the East River—and then thankfully dropped out of politics. Next Rudy Fuller, leader of what is now the Fifty-first Aldermanic District, found the situation beginning to thicken on him. He needed a vote-setter on his ticket. One afternoon Kline thought he'd go home early and take his family out for a ride. More luck. Fuller waved to him from a window.

"Hey, Kline," said he, in effect, "go down and join the Republican Club in this district. We're going to run you for alderman."

Kline didn't want any more politics.

MR. L. KLINE.

The first batch had been sour. But he had to take it just the same, and served until the Democrats gerrymandered him out of office. As a consolation he was made assistant United States appraiser in Brooklyn. That place just suited him. He made a violent protest when the leaders told him that his party was once more in a bad way, and he must be a candidate for alderman—once more. As usual, he was ejected. Then ambition first began to stir within him. Previously he had been a conscript.

"I want to be vice-chairman of the board," said he.

His politically practical friends told him this house was as empty as a tenor drum. It didn't even have a salary. But Kline persisted. Luck, as usual, came his way. Two or three unexpected things happened that resulted in his election. John Purroy Mitchell, then president of the board, became ill, and Kline worked so well in filling his place that no objection was made to the grant of \$4,000 salary to him—which he needed, for Kline is not a rich man. Then Mitchell resigned to become collector of customs—and to become the fusion candidate for mayor—and Kline stepped into his shoes.

And then the story of William Jay Gaynor's death at sea shocked everybody—and Ardolph Loges Kline was mayor of New York.

Kline is a fine, genial man, with a penchant for "joking." He belongs to a long list of societies of various sorts. As a clerk in a men's furnishings goods store in Brooklyn, he didn't have time to learn to play golf or tennis or other daylight sports. So feeling the need of a feat he joined the National Guard. He became colonel of the Fourteenth Regiment, and made himself one of the big men of the state organization. His wide acquaintance made him a valuable asset of the Republican organization in Brooklyn. Luck did the rest.

Kline likes to tell a good story. He is apt at turning phrases and capping sentences. He is so thoroughly good natured and obliging that people do favors for him almost as readily as he does them for other people. He is conscientious and his acquaintances declare that he always does his duty as he sees it. But these qualities didn't make him mayor of New York.

That's what luck did.

Last year 1,204 men and 71 boys were killed in the coal mines of the United Kingdom, and 140,185 men and 10,355 boys were injured.

### DIVIDEND WAS PAID

### ON STOCK PREMIUMS

Liquidator of Bankers' Trust Gives Evidence; Tells of Balance Sheet

That the 12 per cent dividend paid by the Bankers' Trust Corporation in 1911 was paid on stock premiums was the statement of J. E. Allen, liquidator and former secretary of the Bankers' Trust, in cross-examination yesterday afternoon by George E. Powell, one of the counsel for the accused in the conspiracy trial of F. C. Cook and J. O. Hearns, now proceeding in the assize court before Mr. Justice Gregory and a jury. This was before Cook was in the company. At first he denied that there was in addition a stock bonus of 10 per cent declared also and then said he believed most of the paid-up shareholders had received some such amount in a general distribution of stock that year. At any rate he knew that some had and that no complaints had come from others.

The earnings of the company in 1911, he said, were comparatively small, a profit of some \$3,000 or \$4,000 having been received from the sale of bungalows. The sum had not been anything like \$33,000, the figure suggested by Mr. Powell, he swore. Allen also stated that the Title Holding Company had never built any bungalows that he knew of, although some built by the Bankers' Trust had been in their possession.

Something of Allen's own experiences were brought out by the cross-examination. Allen said that he had worked for three banks and two other concerns besides the Bankers' Trust. One of those concerns had gone into liquidation in New Westminster and then Cook had given him employment in the Title Holding Company. That Cook had lent money and endorsed a note for him Allen also testified, saying that they had been very good friends at that time.

Respecting Cook's resignation, for which Allen had previously said Cook assigned the fact of the People's Trust failure after he had left it, Mr. Powell elicited from the witness that it came immediately preceding Cook's trip to Medicine Hat to carry on transactions in which the Bankers' Trust was to acquire some valuable coal lands. Mr. Powell asked the witness to say that this was no reason for Cook's resignation, but Allen was loth to do so. Allen also stated there was no record of Cook's having put \$19,500 into the Bankers' Trust, although Cook had told Allen that he had bought this much stock through Webborn.

statement was in accordance with the act but Mr. Powell said not so. The other balance sheet was one which Allen said he was told was drawn up at Cook's instigation and which he said was crooked. He pointed out certain items in it which he said were not correct and the statement at the head of the sheet that the company had an office in London, Eng., he also said was incorrect. His cross-examination was continued this morning by Mr. Powell.

### WEATHER BULLETIN

Daily Report Furnished by the Victoria Meteorological Department.

Victoria, Oct. 8-5 a. m.—The pressure is moderately high on the Coast, and a low area covers the Rocky Mountain region from Alberta to Colorado. Rain has fallen from Vancouver Island southward to Nevada, and a strong northwesterly gale occurred at the mouth of the Columbia river. In the prairie provinces the weather is fair and somewhat colder.

Forecasts.  
For 24 hours ending 5 p. m. Friday.  
Victoria and vicinity—Light to moderate winds, chiefly westerly, generally fair, with stationary or lower temperature.  
Lower Mainland—Light to moderate winds generally.

Reports.  
Victoria—Barometer, 29.82; temperature, 52; minimum, 38; wind, 4 miles W.; rain, 14; weather, clear.  
Vancouver—Barometer, 29.56; temperature, 41; minimum, 40; wind, calm; rain, 18; weather, cloudy.  
Kamloops—Barometer, 29.83; temperature, 42; minimum, 42; wind, 4 miles W.; weather, clear.  
San Francisco—Barometer, 29.94; temperature, 52; minimum, 52; wind, 6 miles S. W.; weather, clear.

Lowest.....38  
Average.....45  
Rain, 14 inch.  
Bright sunshine, 30 minutes.  
General state of weather, cloudy and showery.

### IS AUTHORESS TOO.

Louise Closser Hale, who is a member of Henry Miller's support and will be seen in "The Rainbow" when it comes to Victoria theatre, Oct. 17, has the distinction of not only being a player of importance on the American stage but is also a successful authoress as well. Her new book of fiction issued last year has been a pronounced success and she is at work upon another. Walter Hale, Louise Closser Hale's husband, is an artist whose name is known to the literary and artistic world as one of the foremost illustrators. The magazine work and books of travel of the two have been extensively read. Miss Hale plays the role of "Betsey Sumner" in "The Rainbow."

The phrase, "Sublime Porte," frequently used to denote the government of the Turkish Empire or the country itself, is derived from the French, and means lofty gate. It had its origin in the gateway of the outer court of the seraglio at Constantinople, from which justice was supposed to be administered.

### DISCUSS METHODS FOR SUNDAY SCHOOLS

Members of Association of Victoria District Listen to Interesting Addresses.

### MEANS OF REACHING ALL PEOPLE CONSIDERED

Rev. J. G. Inkster Stated Man Told Him of Thirty Gambling Places Running

At the evening session of the Sunday school convention yesterday, Dr. Russell, superintendent, presiding, several interesting addresses were delivered. The first of which, by Superintendent Penman, on "Redeeming and Improving the Teacher's Time," pointing out the true meaning of efficiency. Did efficiency, asked the speaker, mean methods or results? Scripture supported the view that things should be done in business-like order. But were the business-like methods used in commercial affairs applicable to Sunday school work? The final test of efficiency in matters of commerce, was the selling of the goods. In Sunday school work the one standard of efficiency was the bringing of boys and girls to Jesus Christ. Other things being equal the best organization would meet with the best results both in business and in Sunday school, but in the latter case business-like methods were not absolutely vital. How could the teacher's time be put to the best use? The first essential was that he should feel a real desire to bring his pupils to a knowledge of the Saviour. Organization and system would be very secondary needs if they possessed this enthusiasm for their work.

Tells of Advance.  
An interesting paper on the subject of the effect of progress of the Sunday school in Victoria during the last 25 years was read by Alderman McNeill, who pointed out, however, in the opening part of his address, that a standard of measurement was necessary before any comparisons could be made.

The aim of the Sunday school was to educate, and education was the training which brought the human mind into harmony with God's universe. It meant study; a study of the physical sciences; a study of geology, also of botany, zoology and of economics; the human relationship. It meant a study of history, of literature and, above all else, the study of man's relation to his God. No man was completely educated until he was in perfect harmony with God.

The aim of the Sunday school was fourfold, and came under two great heads: to evangelize and to energize. First, it meant that members had to be won to an acceptance of Jesus; second, that Christian character had to be developed; third, the development of the missionary spirit; and fourth, the training for missionary service.

Methods had improved in a general way during the past years, but this he said without any reflection on the men and women who built the foundations, who ploughed and sowed the seed of which people to-day were reaping the harvest. The old teachers had loved their work, and he would like to express on behalf of the present workers the appreciation which lived of their splendid effort. There was also a better Sunday school spirit to-day. Everyone believed in the Sunday school. The church gave it better support to-day than formerly; the buildings were better adapted for school work, and expenditure on Sunday school work was perhaps less criticised than ever before. Then the organization was better. But the inspiration

### NO ALUM

side of the work needed encouragement. The organization embraced pupils of all ages from the cradle to old age. There were weaknesses, however, and one of these was the need of greater interdependence. The various departments should not take the stand that they were not responsible to the head. A wide measure of liberty might be given, but they should not be allowed to lose sight of their relation to the Sunday school and the church. Then, too, the pupil was of more importance than the course of study, and in the school system itself the most important thing was the teacher. Other important considerations were the ability of the superintendent and officers, the music, the library, etc. With good equipment, good teachers, a genuine zeal for the work, the world would, to quote Emerson, keep a beaten path to the door. Evangelization would go forward automatically.

Pioneer Worker Speaks.  
Noah Shakespeare, one of the pioneer Sunday school workers of the city, expressed his pleasure at having been present to hear Alderman McNeill's paper, and endorsed the statements about the improved condition of the Sunday schools by giving a vivid picture of the Sunday schools of a few years ago. Rev. Joseph McCoy referred to the point made by Superintendent Penman about efficiency, and emphasized the necessity for this.

The chairman read an extract from a Wall Street Journal which, ironically enough, pointed out that what the world needed to-day more than anything else was piety.

Horace J. Knott, in speaking of the house-to-house visitation, said that the Anglican and Roman Catholics were giving their hearty support to the idea, and his motion that the new executive should be instructed to take up the matter of house-to-house visitation was passed, being seconded by Mr. Smith, and spoken to by Revs. J. G. Inkster, Mr. McCoy and Mr. Thorpe. Rev. J. G. Inkster deplored that the materialism of the scientist of fifty years ago had now filtered down to the common people. Sir Oliver Lodge had recognized the evils of dogmatism, and in his address to the British Association this year had openly taken up an attitude opposed to it.

Referring to the teacher's relation to his class, Mr. Inkster said that the work should be taken up by the form or for his own sake, but before proceeding to attempt to lead a child to Christ the teacher should know him himself. Sacrifice and service were necessary elements in the spirit which was taken into teaching. Personally he would like to see the hour of Sunday school changed to the morning instead of the afternoon. Any preacher knew that it was difficult to keep a congregation awake after noon. People, both adults and children, could do much better work in the morning; the senses were more receptive, the enthusiasm greater.

Agent For Good.  
The Sunday school was an agent for good in the community. It was important that Victoria should be a Christian city, but there were very strong tendencies toward paganism in certain districts. The Sunday school had much to be glad of at that moment in having won the attorney-general to its side in the matter of Sabbath observance and gambling, said

the speaker. There was a big foreign community in the city, and this would have to be absorbed and brought to the best standards. But the Anglo-Saxon community was weak where its church obligations were concerned. There were 60,000 people in the city, and only 10,000 of these belonged to churches. Less than this number attended church, and if the whole of the population took it into their heads to go to church next Sunday there would not be church accommodation for them. Worse than the actual ignorance in some places was the great indifference of the masses. South of the line the great question of how to lift the masses out of the mud was being earnestly studied, and the proposed canvass of the city of Victoria was one of the best steps that could possibly have been decided on.

Mr. Inkster expressed his sorrow at the attitude of society and society women. Gambling was an evil which pervaded society. A young man had come to him only last week, he said, and had told him that there were thirty gambling places going wide open in the city at the present time. Then there were the horse races at the Willows.

For the sake of the individual, the Sunday school was a great and beneficial agent in society. It was, perhaps, not easy to work up a genuine affection for children in some cases, but the teacher had only to feel a tremendous interest in his work to become interested in his pupils and the salvation of their souls. As soon as they began to long for that nothing could stand in the way of progress.

Cradle Roll.  
The Cradle Roll road during the afternoon by Noah Shakespeare showed that 665 babies had been enrolled in the year in the Sunday school.

### THE SOCIAL MYTH.

One of the middle-aged London bachelors whom everyone knows, was asked a day or two ago when he was leaving town. He looked quite shocked. "Oh! on Thursday morning. No one could possibly be seen in town after Wednesday, and I'm due in Caribbea. There is an idea that the whole of society is one corporate body, and must move together, and the bachelor in question is one of those who try to live up to the long-decayed idea.

### Men! Try this sham-poo for dandruff

Makes the scalp feel fine  
First, rub the scalp thoroughly with the tip of your fingers. Then apply a little of Woodbury's Facial Soap and rub it in. It is a fine, gradually cooling water, being the final water really used. Rub again with the finger tips till the hair is dry.  
Woodbury's Facial Soap is the work of an authority on the skin and hair. This treatment with it loosens the dandruff and dead skin, cleanses the little pores at the base of each hair and restores them to their natural, healthy action. The oil from these pores then goes into the hair, and gives it the gloss and glint so much admired. The dandruff and accompanying itching disappear and the scalp feels delightfully clean and cool.  
Try it. Get a cake of Woodbury's today. Woodbury's Facial Soap costs 25¢ a cake. No one hesitates at the price after their first cake.

### Woodbury's Facial Soap

For sale by Canadian druggists from coast to coast.

For 4¢ we will send you a sample cake. Write today to the Andover Tergens Co., Ltd., 217 Spadina Ave., Toronto, Ontario.

**YOU have heard of the famous Bulkley Valley, which contains one of the largest and richest bodies of agricultural land in British Columbia.**

**You have heard of the tremendously rich Babine, Hudson Bay Mountain and Copper River mining Districts.**

**The Grand Trunk Pacific is now operating trains from Prince Rupert to a point 301 miles east.**

**The trade centre and future city of this wonderful section is HUBERT—located in the very heart of the Bulkley Valley, and from where branch railroads must be built to open up the great surrounding country.**

**HUBERT is located three miles east of the old towns of Telkwa and Aldermere, both of which will move to the railway. HUBERT is the recognized location for the future city, and has behind it the same organization that created and made FORT GEORGE famous.**

**Write to-day for information about this future city. Maps, plans and photographs will be sent FREE.**
